ADVANCED HUNTER EDUCATION - PROVIDING NEW OPPORTUNITIES, page 6
Workshops on a variety of topics expand on the knowledge and skills of hunters.

WHAT WE DO FOR YOU AND WILDLIFE, page 31
Efforts and activities of the DEEP Wildlife Division benefit all wildlife and habitat, as well as state residents.

On the cover:
It was a December muzzleloader stalk in the first real snow of the hunting season. Luke Emmons had been hunting this buck since bow season in a big woods parcel. The landowner affectionately calls this area the “Ridge Hill Preserve.” An hour into his stalk, Luke came out of a dense cedar grove and spotted the buck. The snow allowed him to stalk within 80 yards. Luke feels blessed to have had the opportunity to harvest an animal of this quality and also permission to hunt the “preserve.”

4 2019 Connecticut Hunting & Trapping Guide
CONNECTICUT BIRD HUNTING STAMPS ARE FOR THE BIRDS!

The Resident Game Bird Conservation Stamp is required to hunt pheasants, wild turkey, quail, partridges, and ruffed grouse. All revenue from the sale of Resident Game Bird Conservation Stamps is deposited into a non-lapsing, dedicated fund to provide a stable funding source for game birds and their habitat.

The Connecticut Migratory Bird Conservation Stamp Program is a great example of how conservation works—concerned citizens paying into a program that was formed to protect and enhance vital habitat. All revenue from the sale of Connecticut Migratory Bird Conservation Stamps goes into a dedicated account that is used solely for wetland habitat management and acquisition or for improving hunter access. Over 3,145 acres of critical wetlands have been protected in Connecticut using stamp funds. These wetlands benefit not only waterfowl, but also a multitude of other wildlife species like herons, egrets, fish, and amphibians.

SHARE YOUR HUNTING AND TRAPPING PHOTOS WITH US!

Help us highlight your successes and also those of young and first-time hunters and trappers by submitting photographs to the DEEP Wildlife Division at deep.ctwildlife@ct.gov. (High resolution photographs are preferred for print publications, like the Hunting and Trapping Guide and Connecticut Wildlife magazine). The photos may be used (with written permission only) in the Connecticut Hunting and Trapping Guide, Wildlife Highlights E-newsletter, Connecticut Wildlife magazine, on the DEEP website, or on the CT Fish and Wildlife Facebook page (www.Facebook.com/CTFishandWildlife).
The Connecticut Conservation Education/Firearms Safety (CE/FS) Program, also known as the hunter education program, has launched a series of advanced hunter education workshops. The goal of these offerings is to reinforce the lessons learned in hunter safety courses while also teaching skills specific to a particular aspect of hunting. By building hunters’ abilities beyond what students receive in basic hunter safety courses, advanced hunter education intends to retain hunters who may still be working towards success in the field. It also builds interest and excitement to recruit those who have not yet hunted and reactivates those who have hunted in the past and may have lapsed in participation. The advanced hunter education workshops cover a variety of topics and provide opportunities for learning skills and techniques to promote success in the field. Each workshop is offered on a yearly basis, usually in two or more locations throughout the state. The CE/FS Program expects to add new programs in the future. Information on current and any additional workshops can be found at www.ct.gov/deep/AdvancedHunterEdu. All programs are free and open to the public. Registration is mandatory and opens approximately 30 days before the event.

**Venison Processing Workshop: February 9 and February 16, 2019**
One of the most daunting challenges for a deer hunter is processing an animal once it is harvested. This workshop guides participants through the steps of taking a deer from whole animal to freezer-ready, packaged meat. The workshop team includes a professionally-trained butcher, a restaurant owner/chef, and a cadre of experienced deer hunters. Students are guided through skinning and butchering, while workshop staff explains the cuts of meat on a deer and their equivalent in domestic stock. A demonstration on preparing venison covers sausage-making and other basic to moderately-difficult recipes. Participants leave the seminar with a recipe booklet, list of processing supplies, and an enhanced understanding of how to break down a white-tailed deer.

**Small Game Hunting Clinic: November 2 and November 9, 2019**
This clinic provides instruction on hunting techniques and equipment. The clinic also includes live demonstrations of field dressing and game care for several small game species. Finally, students are given the opportunity to skin and dress gray squirrels using the techniques they learned in the classroom.

**Advanced Hunter Education - Providing New Opportunities**

**Waterfowl Hunting Seminar: September 8, 2019**
This seminar is presented by the Connecticut Waterfowlers Association (CWA) in partnership with the CE/FS Program. It prepares both new and experienced hunters for the waterfowl season, beginning with a review of the safety considerations required to hunt ducks and geese. Next, students participate in the discussion of basic setups for hunting geese in agricultural fields, as well as both ducks and geese over water. Examples of watercraft used for duck and goose hunting are discussed, along with the basic techniques for calling. The seminar concludes with samples of locally harvested waterfowl.

**Spring Turkey Hunting Seminars: March 16, April 6, and April 13, 2019**
Presented by a combination of DEEP biologists and volunteer CE/FS instructors, these seminars are a perfect starting point for both new and experienced turkey hunters. DEEP’s Wild Turkey Program biologist introduces participants to the success story of Connecticut’s wild turkey population, as well as basic biology and habitat requirements. Participants are given tips and tactics for hunting turkeys with both a bow and firearms. Basic calling techniques and setup are also covered. During the last portion of the seminar, students have an opportunity to pattern their shotguns under the guidance of a CE/FS instructor.

**Small Game Hunting Clinic: September 14 and September 15, 2019**
Small game hunting requires minimal investment in equipment and offers a great deal of opportunity in Connecticut. This clinic provides information on how to capitalize on the diverse small game hunting in our state. Classroom instruction begins with a presentation from DEEP’s Small Game Program biologist on habitat and biology of common small game animals. Then, experienced small game hunters provide instruction on hunting techniques and equipment. The clinic also includes live demonstrations of field dressing and game care for several small game species. Finally, students are given the opportunity to skin and dress gray squirrels using the techniques they learned in the classroom.

**Deer Hunting Marksmanship Clinic: October 12 and October 19, 2019**
This clinic gives participants the opportunity to sight in their shotgun or rifle ahead of the November firearms deer seasons. Students are required to bring their deer hunting firearm (cased and unloaded) and 60 rounds of ammunition to the Glastonbury Shooting Range on the day of the clinic. Upon arrival, students receive a lesson on basic marksmanship principals, followed by a range safety brief. Students are paired up with a coach who works with them to sight in their firearm to 100 yards. Once a student’s firearm is on target, there is the option to shoot from multiple realistic hunting shooting positions, including from a treestand and ground blind.

Paul Benjunas/CT DEEP Wildlife Division
The target shooting and hunting community prides itself on being safe and responsible with firearms in all situations—from using them outdoors to storing them safely at home. Sometimes, however, unusual conditions such as extremely dry environments require an extra level of awareness and safety on the part of shooters.

Wildfires have many possible causes. The National Shooting Sports Foundation, the trade association for the firearms and ammunition industry, reminds all shooters that during dry and hot weather conditions their use of certain ammunition and targets could accidentally ignite a wildfire. NSSF reminds all target shooters and hunters, as well as other outdoor enthusiasts, to consider the potential consequences of their activities in fire-prone environments.

- Make it a point to know the regulations and rules related to shooting in areas experiencing dry and hot conditions, whether on public or private land or at shooting ranges. Many national forests, for example, do not allow recreational shooting when fire restrictions are in effect.

- Consider the type of ammunition and targets you are using. Minimize the risk of fires by not using steel-jacketed ammunition, ammunition with steel-core components, tracer rounds or exploding targets in fire-prone areas.

- Remember that equipment, such as cars and ATVs, can have extremely hot exhaust systems that could ignite dry vegetation, so park only in designated areas.

- Extinguish and dispose of smoking materials safely.

- Follow guidelines to extinguish campfires.

- Warn others of potential dangers and behaviors for starting wildfires.

- Report any wildfire you see to authorities.

- Spread this message to other target shooters, hunters and outdoor enthusiasts.

NSSF.ORG
Licenses & Permits

Licenses and permits to hunt and trap in Connecticut are available online, at most town clerks, and at some sporting good stores and DEEP offices. Licenses are valid for a calendar year. To buy licenses online, or for a listing of places that sell licenses, go to: www.ct.gov/deep/hunting

Conservation ID#: Everyone issued a license has been issued a unique Conservation ID# that should be used every time and every year when purchasing licenses and permits. If you log on to the Online Sportsmen Licensing system, or go to a vendor for your licenses, always use your Conservation ID# as a means of identification. You should write your Conservation ID# down and keep it in a safe place. Your Conservation ID# is your license number.

Hunter Education Requirements: No hunting or trapping licenses will be issued to any person unless proof is provided that they have held a RESIDENT license in the respective discipline within the last 5 years OR the person has a certificate indicating successful completion of a Connecticut Conservation Education/Firearms Safety (CE/FS) course (or recognized equivalent) in the respective discipline for which they are applying. Hunter education coursework may have been completed online but MUST have been accompanied by a field day. “Apprentice” or “Mentored” hunting licenses issued in other states do not qualify. To become certified in firearms safety, a person must be 12 years of age or older. All bowhunters must show proof when purchasing a small game/deer archery permit that they have completed the CE/FS bowhunting course (since 1982) or its equivalent from another state or country. Certifications from another state or country must specify Bowhunter Education. If you have previously purchased a 2002 or later Connecticut bowhunting license, you have already provided such proof. Obtain course listings by visiting the DEEP website at www.ct.gov/deep/hunting or calling the Wildlife Division at 860-424-3011.

Printing Hunter Safety Certificates: After successfully completing a hunter safety course, your certification will be uploaded to your online license profile and will print directly at the bottom of your hunting or fishing license (you may print your certification without making a purchase). Certificates will no longer be mailed. To print your certificate, visit www.ct.gov/deep/ SportsmenLicensing.

Age 65+ Annual Licenses: Firearms hunting and trapping licenses are issued free to residents who meet hunter and trapper education requirements. These licenses must be renewed annually.

Hunting by Minors: A person must be 12 years of age or older to hunt. Persons 12 through 15 years of age must be licensed and accompanied by a licensed hunter 18 years of age or older while hunting. A person may not supervise more than 2 minors at one time while hunting. Minors are entitled to their own bag limits. Junior license holders do not have to purchase a new license if they turn 16 years of age during the same calendar year.

Trapping by Minors: There is no minimum age requirement for trapping. Persons under age 16 must purchase a Junior Trapping License.

Free License for Hunters with Disabilities: A person who has permanently lost the use of a limb may be issued a hunting or trapping license free-of-charge (permits and stamps not included). Non-residents are eligible for this free license if their state provides the same privilege to Connecticut residents. Verification of the disability, signed by a licensed physician or advanced practice registered nurse, must be presented. See page 38 for more information. These licenses are available at town clerk and select DEEP offices.

Armed Forces: Any active full-time member of the U.S. armed forces may purchase a Connecticut hunting, fishing, or trapping license for the same fees as a resident. Proof of full-time membership during the calendar year must be carried while using the license. These licenses are only issued at DEEP or town clerk offices.

Lost License: At any time, you can log on to the Online Sportsmen Licensing system and reprint your license. You can also go to a licensing vendor or DEEP office to have your license reprinted.

FISHING/HUNTING GUIDE REGISTRATION

Anyone providing fishing and hunting guide services in Connecticut needs to register annually with DEEP. Guides can register online using DEEP’s Online Sportsmen Licensing System (www.ct.gov/deep/sportsmenlicensing), in person at DEEP offices, or at other vendors where hunting and fishing licenses and permits are available. There is a $100.00 fee for this registration.

SNAPPING TURTLE TRAPPING ENDORSEMENT

• Required when using traps to catch snapping turtles. Available for free online or at DEEP offices.
• Season Dates: July 15 – September 30
• Bag Limits: Daily 5, Possession 10, Season 10
• Size Limit: Minimum 13” shell length
• Turtle eggs cannot be taken and turtle nests cannot be disturbed without DEEP authorization.
• Effective October 1, 2018: The commercial trade of snapping turtles is prohibited.
• Legal Methods: Hand capture, dip net, turtle hook, floating or non-floating turtle trap, or hoop and line.
• A maximum of 3 turtle traps can be used per individual at any given time, traps must be set in such manner as to allow turtles to surface and breathe and be constructed of 1” minimum mesh size. All traps must have a functional escape hole with minimum diameter of 7.5” to allow passage of fish and smaller turtles. Box-type traps cannot exceed 4’x4’x4’ and hoop-style traps cannot exceed 84”. Traps must be tagged with a plate or tag visible above the water line bearing the Conservation ID# of the trapper. All traps may only be tended by the authorized trapper and must be checked...
at least once every 24 hours and emptied of catch. Any other wildlife captured must be immediately released at the point of capture.

- Traps cannot be used on any body of water owned, leased, or otherwise under control of the DEEP.
- Using a hook and line to capture snapping turtles requires a fishing license.

**THREE-DAY OUT-OF-STATE BIRD HUNTING LICENSE**

This license allows out-of-state hunters to hunt migratory and resident (non-migratory) game birds, including wild turkeys, for three consecutive privilege days (Sundays not included). The $35 fee for this license will go into the Game Bird Conservation account, which is exclusively for the purchase and management of game birds and their habitat. Out-of-state hunters will still need to purchase a Connecticut Migratory Bird Conservation Stamp and/or a Connecticut Resident Game Bird Conservation Stamp, depending on what species they intend to hunt.

**CONNECTICUT RESIDENT GAME BIRD AND MIGRATORY BIRD CONSERVATION STAMPS**

Connecticut Resident Game Bird Conservation Stamp
- Valid for Calendar Year
- Fees: $28 Resident, $28 Non-Resident
- $14 for resident 12 to 17 year olds

This stamp replaces all turkey permits. Required for hunting pheasant, partridges (Hungarian and chukar), grouse, quail, and wild turkey. Current firearms hunting license or Small Game and Archery Deer Permit required. When purchased, authorization for resident game bird hunting will be printed on your license.

Connecticut Migratory Bird Conservation Stamp
- Valid for Calendar Year
- Fees: $17 Resident, $17 Non-Resident
- $9 for resident 12 to 17 year olds (junior hunters are no longer exempt)

- This stamp has been merged with the Harvest Information Program (HIP) Permit. It is required for hunting waterfowl, woodcock, rail, snipe, and crow. When purchased, authorization for migratory bird hunting will be printed on your license. The actual state stamp no longer needs to be signed or carried while hunting. If you want a copy of the actual stamp mailed to you, answer “yes” to the prompt when selecting the stamp for purchase. Physical stamps can also be purchased by mailing a request with the enclosed fee to DEEP Licensing & Revenue, 79 Elm Street, Hartford, CT 06106.

Federal Migratory Bird Conservation Stamp
- Valid from July 1 through June 30
- Fees: $25 Resident, $25 Non-Resident
- $9 for resident 12 to 17 year olds (junior hunters are no longer exempt)

Available at most Post Offices. Also available by telephone and online. Go to www.fws.gov/duckstamps for more information. Stamp must be signed in ink across its face. Junior hunters ages 12–15 are exempt from purchasing a federal stamp.

**FIREARMS DEER HUNTING PERMITS**

- Fees: $19 Resident, $68 Non-Resident, $10 for resident 12 to 17 year olds
- A current firearms hunting license is required to purchase firearms deer permits.
- Lottery permits can be applied for starting January 1. See page 24 for details.
- No one may purchase both a State Land Lottery Permit and a State Land No-Lottery Permit. If you are rejected for a lottery permit, you may still purchase a State Land No-Lottery Permit.

**Revolver Deer Endorsement** - Fee: $5

Allows persons hunting with a Free Landowner Permit or Connecticut residents hunting with a Private Land Shotgun/Rifle Permit to use a revolver rather than a rifle or a shotgun to hunt deer on private lands of at least 10 acres in size. A person using a handgun for hunting must
pass any required state/town permits to carry.

**LANDOWNER HUNTING PERMITS**
(10 OR MORE CONTIGUOUS ACRES REQUIRED)

Turkey permits have been replaced by the Resident Game Bird Conservation Stamp. Landowners may take turkeys on their property (any season) with either a Free Landowner Resident Game Bird Conservation Stamp or Resident Game Bird Conservation Stamp. There is no additional bag limit for turkeys due to the free stamp.

Wildlife management is largely funded through the Federal Aid in Wildlife Restoration Program. This program was initiated by sportsmen and conservationists in the 1930s to provide states with funding for wildlife programs. Funds are derived from a federal excise tax on firearms, ammunition, and archery equipment. These funds are collected from the manufacturers by the Department of the Treasury and are apportioned each year to the states for wildlife programs.
When bears find human-provided foods, they can become habituated to humans and residential settings. Habituated bears are more likely to be struck by vehicles, cause property damage, and threaten human safety. Removing and managing food sources can prevent these problems. Bears are rarely aggressive towards people, although habituated bears may act curious and approach more closely.

**Black Bear DO’s and DON’Ts**

**Bears Seen When Hunting, Hiking, or Camping:** Bears normally leave an area once they have sensed a human. If you see a bear, enjoy it from a distance.
- **DO** watch bears from a distance if you are undetected in a hunting blind or stand.
- **DO** make your presence known by making noise and waving your arms if you see a bear while hiking, and **DO** back away slowly.
- **DON’T** climb a tree or run away.
- **DO** increase your efforts to look large and offensive if a bear continues to approach you.
- **DO** keep dogs on a leash and under control.
- **DON’T** approach or try to get close to a bear to get a photo or video.
- **DON’T** cook food near your tent or store food inside your tent. Instead, store food in a secure vehicle or use rope to suspend it between two trees.

**Bears Near Your Home:** Bears are attracted to garbage, bird feeders, pet food, compost piles, fruit trees, livestock, and beehives around houses.
- **DON’T** intentionally feed bears.
- **DO** remove bird feeders and bird food from late March through November.
- **DO** store garbage cans inside a garage or shed. Add ammonia to trash to make it unpalatable.
- **DO** clean and store BBQ grills in a shed or garage after use.
- **DO** protect beehives, chickens, and other livestock with electric fencing and move chickens and livestock into coops, sheds, or barns at night if possible.
- **DON’T** approach or try to get close to a bear to get a photo or video.
- **DON’T** leave pet food outside overnight.

**Report Bear Sightings!**
- Reports of bear sightings are valuable indicators of how the state’s bear population is growing and expanding, as well as the activity and movements of bears. Report bear sightings and learn more about bears at [www.ct.gov/deep/blackbear](http://www.ct.gov/deep/blackbear).
- A common misconception is that a tagged bear in Connecticut is a problem bear, and a bear with two ear tags was caught on two different occasions because it was causing problems. Actually, every bear receives two ear tags (one in each ear) the first time it is handled by DEEP, regardless of why it was tagged. Most tagged bears have not been caught as problem bears, but rather as part of a project to research the state’s bear population.

**Game Bird Harvest Tag**

| Permittee: ____________________________ |

The taking of propagated game birds on regulated private shooting preserves, regulated dog training areas, and field trial events requires that each bird taken be identified with a tag containing the permittee’s name and date of taking. Handwritten tags are permitted or copies of the tags below may be used. A full sheet of tags may also be downloaded for printing from the DEEP’s website at [www.ct.gov/deep/Hunting](http://www.ct.gov/deep/Hunting). Importation of game birds requires a permit from the Department of Agriculture (860-713-2508).
Hunting Near Roads, Buildings, People, and Domestic Animals: Hunting or shooting from or across the travelled portion of any public roadway is prohibited. Shooting toward any person, building, or domestic animal when within range is prohibited.

Motor Vehicle/ATV Use: Hunting or shooting from a motor vehicle is prohibited. The use of all-terrain vehicles is prohibited on state land (see exceptions under Hunting Opportunities for Persons with Disabilities on page 38).

Closed Season: No hunting and no training of dogs from October 12 through 7:00 a.m., EDT, on October 19, 2019, except for the hunting of rails in marshes, waterfowl hunting, legal deer, turkey, and coyote hunting; licensed private shooting preserves operating under the provisions of Sec. 26-48; field trials held under the provisions of Sec. 26-51 and Sec. 26-52; and the training of hunting dogs under the provisions of Sec. 26-49 of the General Statutes; and the hunting of dogs on any area approved by the department for this purpose.

Electronic Calling Devices: The use of electronic calling devices is prohibited when hunting migratory birds (except crows) and turkeys. Electronic calling devices can be used when hunting crows, coyotes, other small game, and deer.

Hunting Prohibited in Westport: By special legislation, the town of Westport has prohibited hunting within town borders.

Public Shooting Ranges: Trap or target shooting on any state property or public hunting area is prohibited unless the area is a designated shooting range. Four state-owned public shooting ranges are available for target shooting, pattern-shooting, and sighting in rifles (see page 14).

The holder of a firearms hunting license may use rifles, shotguns, muzzleloaders, handguns, and high-velocity air guns subject to certain restrictions.

500 Foot Zone: It is prohibited to hunt with, shoot, or carry a loaded firearm within 500 feet of any building occupied by people or domestic animals, or used for storage of flammable material, or within 250 feet of such buildings when waterfowl hunting in tidal areas from land shooting positions or from floating blinds anchored adjacent to land or from rock positions, unless written permission for lesser distances is obtained from the owner and carried. Landowners, their spouse, and lineal descendants are exempt from this restriction, providing any building involved is their own. The 500 foot zone does not apply to bowhunting.

Firearms in Vehicles: It is prohibited to carry a loaded firearm in a vehicle. This does not apply to persons with handguns who have a valid Connecticut permit to carry pistols or revolvers.

Rifles and Handguns: Rifles or handguns using ammunition larger or heavier than .22 caliber rimfire are prohibited on state-owned land. Rifles or handguns of any caliber are prohibited on State-leased and Permit-Required Hunting Areas (see Permit-Required and State-Leased Hunting Area sections for exceptions). The use of rifles or handguns to hunt turkeys, waterfowl, or any other federally regulated migratory game bird (except crows) is prohibited.

Hunting on private land with ammunition larger than .22 caliber rimfire during the private land shotgun/rifle deer season is prohibited unless the user has a valid private land deer season permit and landowner consent form. The use of rifles or revolvers to hunt deer is subject to additional restrictions (see Private Land Shotgun/Rifle Season). The use of ammunition larger or heavier than .22 caliber rimfire to hunt raccoon or opossum at night is prohibited. A person using a handgun for hunting must possess any required state/town permits to carry. Note: it is legal to use .17 caliber rimfire firearms in all situations where it is legal to use .22 caliber rimfire firearms.

Shotguns: The possession of shotgun ammunition larger than #2 shot is prohibited on state-owned lands, state-leased lands, and Permit-Required Hunting Areas, at all times, and is prohibited on private lands during the Private Land Shotgun/Rifle Deer Season (see Permit-Required and State-Leased Hunting Area sections for exceptions). However, on any lands, waterfowlers hunting from a boat, blind, or stationary position may use up to and including size BB steel shot. The possession of lead shot while hunting waterfowl, rails, and coots is prohibited. The use of shotguns larger than 10-gauge for hunting waterfowl is prohibited. Shotguns must not be capable of holding more than 3 shells (2 in the magazine, 1 in the chamber) when hunting waterfowl, other migratory birds (except crows), deer on state lands, and turkey. The exception is that unplugged shotguns are legal to use during the September Canada goose season. The use of shotguns to hunt deer or turkey is subject to additional restrictions (see Deer Hunting and Turkey Hunting).

Muzzleloaders: During Muzzleloader Deer Seasons, a muzzleloader means a rifle or shotgun, .45 caliber minimum, incapable of firing a self-contained cartridge, using powder and a single projectile loaded separately at the muzzle end. Muzzleloader means a rifle or shotgun, .45 caliber minimum, incapable of firing a self-contained cartridge, using powder and a single projectile loaded separately at the muzzle end. Muzzleloaders are prohibited on hunting or shooting from or across the travelled portion of any public roadway is prohibited. Shooting toward any person, building, or domestic animal when within range is prohibited.

High-Velocity Air Guns: Are restricted to those that use a single ball or pellet-like projectile. Additional restrictions on the use of air guns are the same as those for rifles and handguns.
Possession of a Firearm: Possession of a firearm while bowhunting is prohibited.

DEFINITION OF BAG LIMITS

Daily Limit: the number of a particular species that may be taken by an individual during a day (from 12:01 a.m. to 12:00 midnight). While in the field, a hunter may not have in their possession more than the daily bag limit for a species.

Possession in Storage: the number of a particular non-migratory game species kept in storage may not exceed the cumulative daily bag limits for that species since the season began, and at no time can it exceed the season limit. The possession in storage of migratory game species such as waterfowl, woodcock, snipe, coots and rail may not exceed the federally regulated possession limit.

Season Limit: the total number of a particular species that may be taken during an open season.

PRIVATE LAND PERMISSION

All hunters are required to have permission from the landowner when hunting on private lands. Verbal permission for the hunting of species other than deer and turkey is sufficient.

Deer Hunters and Turkey Hunters: must have written permission of the landowner for the current season on official DEEP forms. Copies of the form do not have to be sent to DEEP, but must be carried while hunting. Old forms, still available at some town clerks and DEEP offices, or a photocopy of the official form found in this guide must be used. Forms may also be downloaded from the DEEP website (www.ct.gov/deep/hunting). The form must be dated for the current season, indicate the hunting implement types authorized by the landowner, and have the landowner’s original signature. A landowner must have a minimum of 10 acres to authorize the use of a rifle or revolver for deer hunting. There is no minimum acreage requirement for using a shotgun, muzzleloader, or archery equipment.

Landowners and Lineal Descendants: are exempt from the requirement to carry written permission while hunting deer or turkey on their own land.

LANDOWNER LIABILITY RELEASE

Connecticut law provides protection from liability to landowners who allow, without a fee, the recreational use of their property.

Sec. 52-557g. Owner of land available to public for recreation not liable, when:

(b) Except as provided in section 52-557h, an owner of land who, either directly or indirectly, invites or permits without charge, rent, fee, or other commercial service any person to use such land or part thereof for recreational purposes does not thereby:

1. Make any representation that the premises are safe for any purpose;
2. Confer upon such person who enters or uses such land for such recreational
public shooting ranges

wooster mountain state park cooperative shooting range: wooster mountain state park, danbury. operated by the danbury shooting sports association. located on rte. 7, approximately two miles south of the danbury mall. clay target shooting allowed. call 203-794-9821 or check the wooster mountain shooting range website (www.woostermountain.com) for the daily time and fee schedule.

high rock cooperative shooting range: naugatuck state forest, naugatuck. operated by the high rock shooting association, inc. range hours: saturday, 9:00 a.m. – 5:00 p.m.; sunday, 12:00 noon – 5:00 p.m. (check website for scheduled closures). range fee: $5.00 for the first hour and $5.00 per hour thereafter. no clay targets allowed. state pistol permit required to shoot handguns. call 203-720-1101 or check the high rock shooting association website (www.highrockrange.com) for information.

glastonbury public shooting range: meshomasic state forest, glastonbury. entry at toll gate road. range hours: saturday and sunday, 10:00 a.m. – 2:00 p.m., depending on the availability of range staff. two hour periods. paper targets only, clay targets not allowed. no range fees. reservations can be obtained through the online sportsmen licensing system (www.ct.gov/deep/sports-licensing) for shooters 18 and older. the individual requesting the reservation must have a ct conservation id number in order to access the online system. reservations may also be made on mondays only from 9:00 am until 9:00 pm by calling the range reservation line at 860-424-3737.

nye holman field archery range: nye holman state forest, tolland. entrance on south river road. field course available to public at all times unless posted otherwise. field points only, arrows with broadheads are strictly prohibited.

regulations reducing fees for hunters ages 12 to 17

in 2014, public act 14-201 established a 50% reduction in all license fees, as well as a 50% reduction in hunting and sport fishing permit, tag, and stamp fees, for resident 16 and 17 year old hunters and anglers. in 2016, public act 16-27 extended the 50% fee reduction for permits and stamps to encompass hunters and anglers less than 18 years of age. for more details, check the appropriate sections of this guide to find out the license, permit, and stamp fees for resident 12 to 17 year old hunters.

license suspension—remedial hunter ed requirement

in accordance with connecticut general statute 26-61, payment of a fine, forfeiture of a bond, or a plea or judgment of guilty for fishing, hunting, or trapping violations may result in the suspension of all sport fishing, hunting, and trapping licenses and privileges.

to comply with the provisions of c.g.s. section 26-31(g), any person having their hunting license suspended for the following safety violations will be required to complete a remedial hunter education course prior to reinstatement of such license following the suspension period. completion of a ce/fs course is required if the hunter under suspension has not been previously certified.

laws

• sec. 26-61 as amended by pa 16-160: suspension of license, registration, or permit. restoration. fines.
• sec. 26-62: hunting related injuries/death to any person, animal other than a wild animal or damage to property of another.
• sec. 26-73: hunting on sunday (exceptions: private shooting preserves and archery deer hunters on private land).
- Sec. 26-74: Use of motor vehicle in hunting
- Sec. 26-91: Taking of migratory birds—violations for hunting before or after legal hunting hours
- Sec. 53-204: Hunting from a public highway
- Sec. 53-205: Loaded weapon in a motor vehicle
- Sec. 53-206d as amended by PA 16-152: Carrying of firearm while under the influence of intoxicating liquor or drug
- Sec. 53a-217e: Negligent Hunting

Regulations — Behavior and Actions of Hunters
- Section 26-66-1:
  - (c) hunting before or after legal hours
  - (d) hunting within 500’ of occupied buildings
  - (e) discharging toward people/animals or across public roadways
- Section 26-86a-6:
  - (a) hunting before or after legal hours

**FALCONRY**

Individuals wishing to participate in the sport of falconry must obtain a Connecticut falconry permit prior to obtaining a falconry bird. Falconers are required to abide by the same regulations that pertain to other hunters who hunt small game and waterfowl. Falconers must wear fluorescent orange and must obtain the same licenses, permits, and stamps required for small game and waterfowl hunting. A non-resident falconry permit is required for any non-resident practicing falconry in Connecticut. To obtain application materials, visit the DEEP website (www.ct.gov/deep/hunting).

**DEALING WITH HARASSMENT**

All hunters, regardless of where they hunt, should be prepared for the possibility of being harassed. Your behavior if you are harassed is extremely important. Maintain your composure and do not retaliate. If you are interviewed by the media, project a positive image.

Connecticut has a hunter harassment law that protects the rights of sportsmen. If you decide to press charges, make sure you have a strong case by: (1) making it evident that the antagonists are following you by going in several directions, (2) asking your antagonists why they are harassing you, (3) being able to identify and describe the individuals, (4) taking the license numbers of their vehicles if possible, and (5) not responding with violence or threatening a protester with bodily harm.

**DO YOUR PART FOR WETLAND CONSERVATION — BUY A CONNECTICUT MIGRATORY BIRD CONSERVATION STAMP!**

The Connecticut Migratory Bird Conservation Stamp Program provides the sole source of funding for many of the wetland projects that are conducted in the state. These projects benefit the approximately 274 fish, birds, mammals, amphibians, and reptiles of the state that rely upon clean, healthy wetlands. All migratory bird hunters are required to purchase a Connecticut Migratory Bird Conservation Stamp. However, anyone interested in supporting wetland conservation is encouraged to purchase a stamp for $17 online at www.ct.gov/deep/SportsmenLicensing (you will need to get a Conservation ID) or by sending a check to DEEP License and Revenue, 79 Elm St., Hartford, CT 06106 and requesting a stamp or stamps (ordered stamps will be sent through the mail).

**FUNDAMENTAL RULES FOR SAFE GUN HANDLING: ACTT**

The most common causes of hunting-related shooting incidents are failure to identify the target, shooter swinging on game, and careless handling of a firearm. ALWAYS follow these rules for safe gun handling:

- **Assume the firearm is LOADED.**
- **Control the MUZZLE; keep the MUZZLE pointed in a safe direction.**
- **Trigger: keep your finger off the TRIGGER until ready to shoot.**
- **Target: be sure of the TARGET and what lies beyond.**
SMALL GAME HUNTING SEASONS
Licensing and permit costs are listed on page 8–10. Specific laws and regulations for each season are below. You must have verbal permission to hunt small game on private lands.

RESIDENT GAME BIRDS
Species: Pheasant, Ruffed Grouse, Quail, Chukar and Hungarian Partridge, Wild Turkey (see pages 18-19 for turkey hunting season information)

Season Dates
- Pheasant: Jan. 1 – Feb. 28 and Oct. 19 – Dec. 31
- Ruffed Grouse: Oct. 19 – Nov. 30
- Quail: Oct. 19 – Nov. 2
- Chukar and Hungarian Partridge: Jan. 1 – Feb. 28 and Oct. 19 – Dec. 31

Bag Limits
- Pheasant: Daily (2); Season (10)
- Ruffed Grouse: Daily (1); Season (8)
- Quail: Daily (2); Season (10)
- Chukar and Hungarian Partridge: Daily (2), Season (10)

Hunting Hours: ½ hour before sunrise to ½ hour after sunset, except on Oct. 19 (7:00 a.m. until ½ hour after sunset)

License and Permits: Firearms or Archery Hunting License and Connecticut Resident Game Bird Conservation Stamp

Legal Firearms: See firearms and ammunition regulations on page 12.

Special Conditions
- Extended Quail Season: Quail may be hunted at the Nod Brook WMA and the Flaherty, Mansfield, and Sugarbrook Field Trial Areas from Jan. 1 – Feb. 28 and from Oct. 19 – Dec. 31.
- Landowners hunting game birds on their own land must obtain a Free Resident Game Bird Conservation Stamp and are restricted to daily and season bag limits. Private hunting clubs can apply for exemption from stamp requirements. Contact Wildlife Division for details. Members and guests of such exempt clubs are not subject to seasonal bag limits when hunting on club lands. They are also exempt from daily bag limits if they use club tags on all released game birds taken on such club lands. Club tags must be applied immediately upon kill and contain club name, hunting license number, and date taken. Game birds identified in this manner do not count towards the statewide daily limit.
- Junior Pheasant Hunter Training Day: Saturday, October 12, 2019. See page 32 for details.

SMALL GAME MAMMALS
Species: Gray Squirrel, Cottontail Rabbit, Snowshoe Hare, European Hare, Woodchuck

Season Dates
- Gray Squirrel: Jan. 1 – Feb. 28 and Sept. 2 – Dec. 31
- Cottontail Rabbit: Jan. 1 – Feb. 28 and Oct. 19 – Dec. 31

Bag Limits
- Red and Gray Foxes: Daily (3); Season (25)
- Coyote: Daily (No Limit), Season (No Limit)

Hunting Hours: ½ hour before sunrise to ½ hour after sunset, except on Oct. 19 (7:00 a.m. until ½ hour after sunset)

Special Conditions
- Federal Regulations: In addition to Connecticut hunting laws, migratory bird hunters are subject to all Federal Laws and Regulations.
- Non-Toxic Shot: Non-toxic shot is required for hunting rails. The maximum size shot allowed is BB for steel and #2 for other federally approved non-toxic shot types.

Migratory Game Bird Hunting
CROW HUNTING
Season Dates: Hunting only on certain days.
- Jan. 12 – March 30: Mon. through Sat.

Bag Limits: No limit

Hunting Hours: ½ hour before sunrise to ½ hour after sunset, except on Oct. 19 (7:00 a.m. until ½ hour after sunset)

License and Permits: Firearms or Archery Hunting License and a Connecticut Migratory Bird Conservation Stamp.

Legal Firearms: See firearms and ammunition regulations on page 12.

Special Conditions
- Federal Regulations: In addition to Connecticut hunting laws, migratory bird hunters are subject to all Federal Laws and Regulations.
- Crow Hunting: While crow hunting from a stationary position, a hunter is exempt from the fluorescent orange clothing regulation (see page 14).

WATERFOWL HUNTING
Species: Duck, Merganser, Goose, Coot

Season Dates: See Migratory Bird Hunting Guide

Bag Limits: See Migratory Bird Hunting Guide

Hunting Hours: See Migratory Bird Hunting Guide

License & Permits: Firearms or Archery Hunting License and Connecticut Migratory Bird Conservation Stamp.

Grooming shop and all breed boarding.

We offer German Shorthair pups from high quality bloodlines, occasionally started or finished dogs are available.

Custom guided hunts on our exquisite shooting preserve guarantee a satisfying yield of pheasant and chukar partridge.

Professional training for all sporting breeds.

Contact Steve Hopko for details 860.684.2252
**Hunting Hours:** ½ hour before sunrise to ½ hour after sunset, except on Oct. 19 (7:00 a.m. until ½ hour after sunset)

**License & Permits** Firearms or Archery Hunting License

**Legal Firearms** See firearms and ammunition regulations on page 12.

**Special Conditions** Foxes and coyotes taken by hunting must be reported by telephone (1-877-337-4868) or online at www.ct.gov/deep/Hunting. Or, they can be pelt tagged (see Pelt Tagging on page 44).

---

**RACCOON AND OPOSSUM HUNTING**

**Season Dates** Jan. 1–19 and Oct. 19 – Dec. 31

**Bag Limits**
- **Raccoon:** Daily (5); Season (No Limit)
- **Opossum:** Daily (No Limit); Season (No Limit)

**Hunting Hours** No restrictions on state-owned lands open to hunting and on private lands where landowners have given permission.

**License and Permits** Firearms or Archery Hunting License

**Legal Firearms** See firearms and ammunition regulations on page 12. Also, when hunting at night, rifles or handguns using ammunition larger than .22 caliber rimfire or shotgun shells larger than #2 shot may not be used.

**Special Conditions** It is illegal to take raccoons or opossums with the use of a light from a motor vehicle.

Conservation Stamp also is required for hunters 16 years or older. See page 10 for information about obtaining the Connecticut stamp. Note: federal waterfowl stamps are not valid unless signed in ink on the face of the stamp.

**Legal Firearms** Shotguns are the only firearms which may be used. Refer to the *Migratory Bird Hunting Guide* for regulations regarding the number of shells a shotgun may hold.

**Special Conditions**
- **Non-Toxic Shot:** Non-toxic shot is required for hunting waterfowl, coot, and rails. The maximum size shot allowed is BB for steel and #2 for other federally approved non-toxic shot types.
- **Possession of Lead Shot:** Possessing lead shot while waterfowl hunting is prohibited.
- **Federal Regulations:** In addition to Connecticut hunting laws, waterfowl hunters are subject to all Federal Laws and Regulations.
- **No Hunting Buffer Zone:** While hunting in tidal areas from land or from floating blinds anchored to land or rock positions, the no hunting buffer zone around permanent buildings is 250 feet (see 500-foot regulation on page 12).
- **Fluorescent Orange Clothing:** While hunting waterfowl from boats or stationary positions, a hunter is exempt from the fluorescent orange clothing regulation (see page 14).
- **Junior Waterfowl Hunter Training Days:** See *Migratory Bird Hunting Guide*. 
Turkey Hunting

**Legal Firearms** Shotguns, 20 gauge or larger, with: #4, 5, 6, 7, 7½ shot, or any combination. Shotguns must not be capable of holding more than 3 shells.

**Legal Bows** See page 13 for a description of legal bows and arrows for turkey hunting. Mechanical string release devices are permitted.

**Special Conditions**
- **State Land Hunting:** See tables on pages 40–43 for state lands open for spring turkey hunting.
- **Tagging and Reporting:** See pages 27-30 and 34 for information on tagging and reporting.
- **Private Land Permission:** Signed written consent of the landowner on official forms for current season must be carried while hunting (see page 35).
- **Decoys:** Decoys may be used, but live decoys are prohibited.
- **Free Landowner Resident Game Bird Conservation Stamp:** Only available to persons owning 10 or more contiguous acres of land. This stamp does not allow the harvest of turkeys over standard bag limits.
- **Junior Turkey Hunter Training Days:** Saturday, April 13 through Saturday, April 20, 2019 (excluding Sunday). See page 32 for details.

**License and Permits**
- **CT Residents:** Firearms hunting license or Small Game and Deer Archery Permit and a Connecticut Resident Game Bird Conservation Stamp.
- **Non-residents:** 3-day out-of-state bird hunting license or non-resident firearms hunting license and a Connecticut Resident Game Bird Conservation Stamp.
License and Permits  Small Game and Deer Archery Permit and Connecticut Resident Game Bird Conservation Stamp.

Legal Bows  See page 13 for a description of legal bows and arrows for turkey hunting. Mechanical string release devices are permitted.

Special Conditions
- **Tagging and Reporting:** See pages 27-30 and 34 for information on tagging and reporting.
- **Private Land Permission:** Signed written consent of the landowner on official forms for current season must be carried while hunting (see page 35).
- **Decoys:** Decoys may be used, but live decoys are prohibited.
- **State Land Hunting:** See tables on pages 40–43 for listing of lands open to fall bow hunting.
- **Free Landowner Resident Game Bird Conservation Stamp:** Only available to persons owning 10 or more contiguous acres of land. This stamp does not allow the harvest of turkeys over standard bag limits.

**FALL FIREARMS TURKEY SEASONS**

**Season Dates**
- Oct. 5 – Oct. 31  State Land, Private Land, and Landowner

**Bag Limits**
- **State Land:** 1 Either Sex
- **Private Land:** 2 Either Sex

**Hunting Hours**  ½ hour before sunrise to sunset.

License and Permits  Firearms hunting license or a 3-day out-of-state bird hunting license, and a Connecticut Resident Game Bird Conservation Stamp.

Legal Firearms  Shotguns, 20 gauge or larger, with: #4, 5, 6, 7, 7½ shot, or any combination. Shotguns must not be capable of holding more than 3 shells.

Special Conditions
- **State Land Hunting:** See table on pages 40–43 for open state land hunting areas.
- **Tagging and Reporting:** See pages 27-30 and 34 for information on tagging and reporting.
- **Private Land Permission:** Signed written consent of the landowner on official forms for current season must be carried while hunting (see page 35).
- **Decoys:** Decoys may be used, but live decoys are prohibited.
- **Free Landowner Resident Game Bird Conservation Stamp:** Only available to persons owning 10 or more contiguous acres of land. This stamp does not allow the harvest of turkeys over standard bag limits.

**TURKEY HUNTING PROHIBITED ACTIVITIES**
- The use of bait, electronic calling devices, live decoys or animals (including dogs) to hunt wild turkeys is prohibited. Except that a dog may be used to hunt turkey during the fall firearms season on private lands only.
- You may not call turkeys for another hunter. Exceptions:
  - If you have a current Connecticut Resident Game Bird Conservation Stamp with or without unused tags remaining, you may call for another hunter on state land.
  - If you have a current Connecticut Resident Game Bird Conservation Stamp with or without unused tags remaining and a signed consent form for a private land parcel, you may call for another hunter hunting on that private land parcel.
- You may not attempt to take turkeys by participating in a cooperative drive.
- You may not shoot turkeys from a building or other permanent structure.
- You may not shoot turkeys roosting in trees.

**TAGGING & REPORTING TURKEY KILLS**

Immediately upon killing a turkey, complete and sign a Harvest Tag and keep it with the carcass at all times. The Harvest Tag must remain with the turkey until it is cut up for consumption. See pages 27-30 and 34 for more information on Harvest Tags and reporting.

**TURKEY HUNTER SURVEYS**

Anybody who obtains a Connecticut Resident Game Bird Conservation Stamp may be asked to respond to a survey concerning their turkey hunting activities. Even if you did not hunt, you should complete the survey. Information gathered from the survey is important to the management of Connecticut’s wild turkey population. Surveys may be conducted by mail, telephone, or the internet.

---

**CE/FS WILD TURKEY HUNTING SAFETY SEMINARS**

- **March 16, 2019**  — Western side of the state
- **April 6 and April 13, 2019**  — Eastern side of the state

Both experienced and first-time turkey hunters stand to benefit from attending one of these seminars which provide “A to Z” hunting information, including safe hunting practices, specialized equipment, calls and decoys, site setup, and other strategies for harvesting turkeys. A DEEP Wildlife Division biologist will also present information about wild turkey biology, population trends, and management history in Connecticut. Seminar participants will have an opportunity to pattern their shotguns for turkey hunting following classroom instruction. To do so, participants must bring the shotgun they intend to use during the spring season, ammunition, a shotgun choke appropriate for turkey hunting, and eye and ear protection. Registration is required and begins 30 days prior to the seminar. Check the DEEP website at [www.ct.gov/deep/hunting](http://www.ct.gov/deep/hunting) for times and locations of each seminar.
DEER HUNTING SEASONS

DEEP provides hunters with a variety of opportunities to harvest deer in Connecticut. Unique deer seasons are based on equipment used to harvest deer. These seasons include: Archery, Private Land Shotgun/Rifle/Revolver, State Land Shotgun, Private and State Land Muzzleloader, and Free Landowner. To participate in the archery deer season, a hunter must purchase a Small Game and Deer Archery Permit. Whereas all firearms season hunters must first purchase a Firearms Hunting License and a separate permit which corresponds to a specific equipment type. To hunt with a revolver, a hunter must purchase a Firearms Hunting License, Private Land Shotgun/Rifle Deer Permit, and a Revolver Deer Endorsement. Licensing and permit costs are listed on pages 8–10. Specific laws and regulations for each deer season are below.

ARCHERY DEER
Season Dates
- Jan. 1 – Jan. 31 – Private Lands (Zones 11–12)
- Sept. 15 – Dec. 31 – Private Lands (All zones)
- Sept. 16 – Nov. 19 – State Land
- Dec. 25 – Dec. 31
- Sept. 16 – Dec. 31 – State Land Bowhunting Only Areas

Bag Limits
- 2 Either Sex and 2 Antlerless (4 Total); additional bag of 1 Either Sex and 1 Antlerless (2 Total) during the Jan 1–31 season on private lands in Zones 11 and 12.

Hunting Hours
- ½ hour before sunrise to sunset.

License and Permits
- Small Game and Deer Archery Permit. Must show proof of completion of the CE/FS bowhunting course (since 1982) or its equivalent from another state or country when purchasing a small game and deer archery permit. A previous Connecticut bowhunting permit purchased in 2002 or later also qualifies.

Legal Bows
- See page 13 for a description of legal bows and arrows for deer hunting. Mechanical string release devices are permitted. There is no minimum acreage requirement for bowhunting.

Special Conditions
- Possession of a Firearm: Possession of a firearm while bowhunting is prohibited.
- Tagging and Reporting: See pages 27-30 and 34 for information on tagging and reporting.
- Private Land Permission: Signed written consent of the landowner on official forms for the current season must be carried while hunting (see page 35).
- State Land Hunting: See tables on pages 40–43 for listing of lands open to archery deer hunting. Certain state lands that do not allow firearms deer hunting are designated as bowhunting only areas. These lands are open to deer bowhunting during the state land shotgun and muzzleloader deer seasons (Nov. 20 – Dec. 24).

- Fluorescent Orange: Bowhunters are required to wear 400 sq. in. of fluorescent orange from Nov. 20 – Dec. 31. Bowhunters may remove fluorescent orange clothing while in a tree stand at least 10 feet off the ground.
- Decoys: Decoys may be used during the early and late archery deer seasons, but must be covered with 400 sq. in. of fluorescent orange during transport. Decoys cannot be used during the Nov. 20 – Dec. 31 time period.
- Replacement Tags: Available for this permit type. See page 26 for details.
- Notice: Saturday, November 9 through Saturday, November 16, 2019 (excluding Sunday) are Junior Deer Hunter Training Days and junior hunters with firearms deer permits may be hunting with firearms. See page 32 for details.
- Sunday Archery Deer Hunting: Archery deer hunters (including landowners hunting with a bow during the Free Landowner Deer Season) can hunt on Sundays on private land only in ALL Deer Management Zones. All archery deer hunting on Sundays must take place at least 40 yards away from blazed hiking trails.

PRIVATE LAND SHOTGUN/RIFLE/REVOLVER
Season Dates
- Nov. 20 – Dec. 10

Bag Limits
- Statewide: 1 Either Sex and 1 Antlerless; Zone 7: 1 Extra Antlerless; Zounces 11 and 12: 2 Extra Antlerless; Zones 2 and 4a: 1 Either Sex (‘Antlerless Only’ tag NOT valid).
Hunting Hours ½ hour before sunrise to sunset.

License and Permits Firearms hunting license and Private Land Shotgun/Rifle Deer permit. Note: Revolver Deer Endorsement is also required if using a revolver.

Legal Firearms 12, 16, or 20 gauge breech loading shotgun loaded with single soft alloy projectile ammunition. Rilled or smoothbore barrels allowed. Centerfire rifle 6mm (.243 caliber) or larger or revolver .357 caliber or larger may be used if the landholding is 10 or more acres and the landowner has authorized use on the consent form. To use a revolver, you must also have Revolver Deer Endorsement for the current season. Muzzleloading rifle or shotgun, .45 caliber minimum. Single projectile loaded from muzzle end. Telescopic sights and shotgun converters are permitted. No minimum acreage required for shotguns or muzzleloaders.

Special Conditions
- Tagging and Reporting: See page 27-30 and 34 for information on tagging and reporting.
- Private Land Permission: Signed written consent of the landowner on official forms for the current season must be carried while hunting (see page 35).
- Replacement Tags: Available for this permit type. See page 26 for details.
- Junior Deer Hunter Training Days: Saturday, November 9 through Saturday, November 16, 2019 (excluding Sunday). See page 32 for details.

PRIVATE LAND MUZZLELOADER
Season Dates Dec. 11 – Dec. 31
Bag Limits Statewide: 1 Either Sex and 1 Antlerless; Zone 7: 1 Extra Antlerless; Zones 11 and 12: 2 Extra Antlerless; Zones 2 and 4a: 1 Either Sex ("Antlerless Only" tag NOT valid).
Hunting Hours ½ hour before sunrise to sunset.
License and Permits Firearms hunting license and private land muzzleloader deer permit.
Legal Firearms Muzzleloading rifle or shotgun, .45 caliber minimum. Single projectile loaded from muzzle end. Telescopic sights and shotgun converters are permitted. No minimum acreage required for muzzleloaders.

Special Conditions
- Tagging and Reporting: See pages 27–30 and 34 for information on tagging and reporting.
- Private Land Permission: Signed written consent of the landowner on official forms for the current season must be carried while hunting (see page 35).
- Replacement Tags: Available for this permit type. See page 26 for details.

STATE LAND MUZZLELOADER
Season Dates Dec. 11 – Dec. 24
Bag Limits 1 Either Sex
Hunting Hours ½ hour before sunrise to sunset.

License and Permits Firearms hunting license and state land muzzleloader deer permit.
Legal Firearms Muzzleloading rifle or shotgun, .45 caliber minimum. Single projectile loaded from muzzle end. Telescopic sights and shotgun converters are permitted.

Special Conditions
- Tagging and Reporting: See pages 27–30 and 34 for information on tagging and reporting.
- State Land Hunting: See tables on pages 40–43 for listing of state lands open to muzzleloader deer hunting.

FREE LANDOWNER DEER SEASON
Available for persons owning 10 or more acres of land.

Season Dates Nov. 1 – Dec. 31
Bag Limits 1 Either Sex and 1 Antlerless (2 total)
Hunting Hours ½ hour before sunrise to sunset.
License and Permits Free Landowner Deer Permit. Appropriate hunting license required if landowner does not live on qualifying property. Note: Revolver Deer Endorsement is also required if using a revolver. For hunting with a bow or crossbow, landowners must...
Deer Hunting Seasons

have a certificate indicating successful completion of a Connecticut Conservation Education/Firearms Safety bowhunting course (or recognized equivalent).

Legal Firearms
12, 16, or 20 gauge shotgun loaded with single soft alloy projectile ammunition. Rifled or smoothbore barrels allowed. Centerfire rifle 6mm (.243 caliber) or larger, revolver .357 caliber or larger, or muzzleloader (45 caliber minimum). To use a revolver, you must also have Revolver Deer Endorsement for the current season.

Legal Bows
See page 13 for a description of legal bows and arrows for deer hunting. Mechanical string release devices are permitted.

Special Conditions
Free Landowner Permits are available only to persons owning 10 or more contiguous acres of land. Additional permits are available for their spouses, lineal descendants, parents, grandparents and siblings.

• Tagging and Reporting: See pages 27-30 and 34 for information on tagging and reporting.
• Fluorescent Orange: Landowners hunting deer on their own land are not required to wear 400 sq. in. of fluorescent orange, but their spouse, lineal descendants, parents, grandparents and siblings are required to do so.
• Sunday Archery Deer Hunting: Archery deer hunters can hunt on Sundays on private land only in ALL Deer Management Zones. All archery deer hunting on Sundays must take place at least 40 yards away from blazed hiking trails.

STATE LAND NO-LOTTERY
Season Dates
• Nov. 20 – Nov. 29 No-Lottery “A” Permits
• Nov. 30 – Dec. 10 No-Lottery “B” Permits

Bag Limits 1 Either Sex

Hunting Hours ½ hour before sunrise to sunset.

License and Permits
Firearms hunting license and either a State Land No-Lottery “A” Permit or a State Land No-Lottery “B” Permit. You may buy only one type of State Land Shotgun Deer Permit. So, you should not purchase a State Land No-Lottery Permit if you plan on applying for a State Land Lottery or Controlled Hunt Lottery Permit.

Legal Firearms 12, 16, or 20 gauge breech loading shotgun loaded with single soft alloy projectile ammunition. Rifled or smoothbore barrels allowed. Shotgun must not be capable of holding more than 3 shells. Muzzleloading rifle or shotgun, .45 caliber minimum. Single projectile loaded from muzzle end. Telescopic sights and shotgun converters are permitted.

Special Conditions
• Tagging and Reporting: See pages 27-30 and 34 for information on tagging and reporting.
• Open Areas: See pages 40–43 for areas open for the No-Lottery “A” and “B” seasons.
• Junior Deer Hunter Training Days: Saturday, November 9 through Saturday, November 16, 2019 (excluding Sunday). See page 32 for details.

NEVER LET THE WEATHER AFFECT YOUR BOW GRIP AGAIN

THE INSULATED BOW MITT (PATENTED)

The Insulated Bow Mitt is the game changer for the inclement weather bowhunter. Whether you shoot with a closed or open hand, the Insulated Bow Mitt™ is made to fit you. 200-grams of Thinsulate material insulates the Bow Mitt and is machine washable.

CHRONIC WASTING DISEASE (CWD)

CWD is a naturally occurring disease of the brain and nervous system in cervids (species in the deer/elk family) that attacks the brain, producing small lesions that eventually result in death. Mule deer, white-tailed deer, moose, elk, and reindeer appear to be naturally susceptible to CWD.

Where is CWD found? Prior to 2005, the disease had only been found in North America west of IL. In 2005, CWD was documented in captive and free-ranging herds in NY and in free-ranging herds in WV. CWD has NOT been found in New England, including CT. States and Canadian provinces where CWD has been confirmed include: CO, WY, UT, NM, MT, SD, KS, MN, WI, IL, NE, OK, NY, WV, MI, VA, MD, MO, ND, IA, PA, OH, TX, AR, MS, Alberta, Quebec (captive herd), and Saskatchewan.

What is CT doing about CWD? Connecticut banned the importation of live cervids across state lines. In 2005, an emergency regulation was passed banning importation of whole carcasses or parts thereof of any deer or elk from wild or captive herds from other states or Canadian Provinces where CWD has been confirmed. The importation ban does not apply to de-boned meat, cleaned skullcaps, hides, or taxidermy mounts. The regulation became permanent in 2007. From 2003-2011, DEEP tested hunter and vehicle-killed deer as part of a nationwide CWD monitoring and surveillance program. Due to a loss of funding, only deer exhibiting symptoms of CWD were tested from 2012-2013. From 2014-2016, CWD testing resumed thanks to a cooperative effort between the Stewart B. McKinney National Wildlife Refuge and DEEP, and with financial assistance from the USFWS National Wildlife Refuge System. Although additional funding sources were lost in 2017, the DEEP continues to collect samples to test for CWD.

How do I know if an animal has CWD? As CWD advances, infected animals display abnormal behavior, such as staggering or standing with poor posture; become emaciated; and appear to be in poor health. The only efficient method for diagnosis is to dispatch the animal and examine brain tissue and lymph nodes for lesions. Anyone observing a deer exhibiting CWD symptoms should notify DEEP at 860-424-3011 or 860-424-3333 (24 hours). If the animal is dispatched, keep the head intact so that a brain sample can be collected for testing.

What precautions should CT hunters take? Concern over CWD should not limit hunter willingness to harvest deer. No evidence exists that CWD affects humans or is present in the state. Even in states where CWD is found, no one has ever contracted CWD. As a precaution, public health officials recommend that humans avoid consuming meat from deer suspected of being infected with CWD. The CWD prion can be found within the meat of deer in the terminal stages of CWD. Higher levels of infected prions accumulate in tissues, such as the brain, spinal cord, spleen, lymph nodes, tonsils, and eyes, and as a precaution, contact with these items should be minimized. Wearing latex gloves and de-boning meat should also minimize potential exposure. Hunters should also minimize the use of natural-based deer lures, and avoid placing deer lures on cloths, skin, ground, or vegetation where deer can reach them.
Deer Lottery

A lottery is conducted to award a limited number of permits for deer hunting on certain state lands and controlled hunt areas. To hunt these areas you must apply for a deer lottery permit.

STATE LAND AND CONTROLLED HUNT LOTTERY

Season Dates
• Nov. 20 – Nov. 29 Lottery "A" Season
• Nov. 30 – Dec. 10 Lottery "B" Season

Bag Limits
1 Either Sex on State Land Areas; variable on Controlled Hunt Areas

Hunting Hours ½ hour before sunrise to sunset.

License & Permits
Firearms hunting license and a state land lottery permit or a controlled hunt area lottery permit. Only one of these permit types may be bought each year. Lottery permits for state land and controlled hunt areas may be applied for starting January 1. Persons rejected for a Lottery Permit may obtain a State Land No-Lottery Permit.

Legal Firearms
12, 16, or 20 gauge breech loading shotgun loaded with single soft alloy projectile ammunition. Rifled or smoothbore barrels allowed. Shotgun must not be capable of holding more than 3 shells. Muzzleloading rifle or shotgun, .45 caliber minimum. Single projectile loaded from muzzle end. Telescopic sights and shotgun converters are permitted.

Archery-Only Controlled Hunt Lottery

Archery-only lottery distributes a limited number of permits, providing access to new controlled hunt areas and allowing landowners to develop hunt programs that may consist of hunters attending a mandatory pre-hunt meeting and/or passing a background check. The archery-only lottery will not affect the hunter’s ability to receive a firearms lottery permit nor will it impact the ability to bow hunt other state lands. In the future, when multiple archery-only lottery areas are available, like the firearms lottery, bowhunters will only be able to receive one archery-only area permit.

Follow existing deer lottery application instructions for the archery-only controlled hunt lottery. The archery-only lottery will run through February 28 and no permits will be available to youth hunters 12 to 17 years old.

Season Dates
• Sept. 16 – Dec. 31

Bag Limits
2 Either Sex and 2 Antlerless; hunters will use the Archery Deer Permit tags.

Hunting Hours ½ hour before sunrise to sunset.

License & Permits
Archery Deer/Small Game License. Only one of this permit type may be received each year. Lottery permits for archery-only controlled hunt areas may be applied for starting on January 1. Persons rejected in the archery-only lottery may hunt any state or controlled hunt area that is open to bowhunting. The archery-only controlled hunt lottery is completely separate from the firearms deer lottery.

Legal Bows
See page 13 for a description of legal bows and arrows for deer hunting. Mechanical string release devices are permitted.

DEER LOTTERY APPLICATION INSTRUCTIONS

Starting January 1, lottery permit applications can be submitted online, or at select DEEP locations (79 Elm St, Hartford; Franklin WMA, North Franklin; Sessions Woods WMA, Burlington; Eastern District HQ, Marlborough; Marine HQ, Old Lyme; Western District HQ, Harwinton).

ADULT licensed firearms hunters over the age of 17 can apply individually or as a group. The maximum number of hunters in a group is four. Applicants may apply for up to six areas and can designate a preference for either the “A” or “B” season.

Upon submission of your application, you will know instantly whether you are successful. If successful, the permit for the area and season will automatically be added to your “shopping cart.” If you apply as a group, the associated permit will also be added to each group member’s “shopping cart.” The permit may be purchased at the time of selection or at a later date. Each group member is responsible for purchasing their own permit. All permits must be purchased by February 28. If a permit is not purchased by that date, it will be forfeited.

YOUTH licensed firearms hunters (12 through 17 years old) can only apply individually. All youths will apply by means of a separate lottery program called Youth Lottery Permits. Applicants can apply and receive their area of choice, unless quotas are filled. Youth permits are purchased at the end of the transaction. We recommend that the adult hunter participate in the lottery first before purchasing the Youth Lottery Permit. This will ensure that the youth and adult receive a permit for the same area. All sales are final and DEEP is unable to switch hunting areas or refund fees.

Reminder: Select lottery permits not purchased by February 28 will be made available on a first-come, first-serve basis starting March 15. Unsold lottery permits can be purchased online or at select DEEP offices until sold out or the season ends. All unsold lottery permits must be purchased at the end of the transaction. Additional information about the deer lottery may be found at www.ct.gov/dep/Hunting. Questions can be directed to michael.gregonis@ct.gov or call the Deer Program at 860-418-5957.
DEER LOTTERY HUNTING AREA MAP

“Celebrate the deer hunting tradition by attending a event near you.”

~ Travis “T-Bone” Turner
Whitetails Unlimited spokesperson and co-host of Michael Waddell’s Bone Collector TV Show.

For information, please call WTU’s New England Field Director Bill Bailey at (413) 244-2304. www.whitetailsunlimited.com
REPLACEMENT TAGS
In deer management zones 11 and 12, two types of supplemental tags are available: Replacement Antlerless Tags and Earn-a-buck Tags.

Replacement Antlerless Tags: For a hunter to receive a replacement antlerless tag, he or she must go to one of several vendor Replacement Tag Deer Check Stations. A current list of check stations is available on the DEEP website at www.ct.gov/deep/hunting or by calling the Wildlife Division at 860-424-3011. Hunters must also complete the following:
1. Report the deer harvest and obtain a confirmation number within 24 hours of harvest;
2. Bring the antlerless deer carcass or head to a check station within 72 hours of harvest;
3. Submit the deer harvest tag with a confirmation number to the vendor; and
4. Sign the replacement antlerless tag that is received from the vendor.

“Earn-A-Buck” Tags: If you register a total of 3 antlerless deer from private land during the same season, you may qualify for a replacement either-sex tag.

Note: Antlerless deer harvested in other zones may be brought to a check station for the purpose of receiving replacement tags, however, the replacement tags (both Antlerless and Earn-a-buck) may ONLY be used in zones 11 or 12. Replacement tags are available in zones 11 and 12 during the private land archery season, shotgun/rifle season, and muzzleloader season. Consult the Deer Management Zone Map for a description of zones (see page 20). All replacement tags will be issued in limited numbers based on a zone’s deer population management goals.

DEER HUNTING PROHIBITED ACTIVITIES
• Hunting with or allowing any dog in your charge to hunt, pursue, or kill deer.
• Hunting deer or any other wildlife while in or on a motor vehicle, snowmobile, or all terrain vehicle (See Hunting Opportunities for Persons with Disabilities for special exemptions).
• Hunting deer by aid or use of a light.
• Taking or attempting to take any deer with the aid of real or artificial bait in Zones 1 to 10, or on state lands in Zones 11 and 12. (Any food, mineral, or chemical product designed to be eaten by deer is considered bait.)
• Use of a decoy during the shotgun/rifle and muzzleloader deer seasons.
• Taking of spotted fawns.

HEMORRHAGIC DISEASE
In October 2017, the DEEP Wildlife Division received confirmation from the Southeastern Cooperative Wildlife Disease Study group that 3 sick deer, which were euthanized, tested positive for Epizootic Hemorrhagic Disease (EHD), the first ever cases reported in Connecticut. More than 50 dead deer were reported in Portland, Middletown, Chester, Haddam, and Lyme all displaying symptoms associated with EHD.

Usually in a new outbreak, the very rapid form occurs and kills the animal within one to three days of infection. Symptoms of hemorrhagic disease in deer include swollen head, neck, tongue, or eyelids with a bloody discharge from the nasal cavity; erosion of the dental pad or ulcers on the tongue; and hemorrhaging of the heart and lungs, causing respiratory distress. The virus also creates high feverish conditions, causing infected deer to sometimes be found near water sources. Not all symptoms are necessarily present in every infected deer.

Hemorrhagic disease is transmitted by tiny biting flies (midges). All documented outbreaks of hemorrhagic disease tend to occur during late summer and early fall due to an increase in midge numbers and will cease with the onset of a hard frost, which kills the midges carrying the virus.

The DEEP encourages anyone who observes deer appearing emaciated, behaving strangely, or lying dead along the edge of waterbodies during summer to report the information, along with the closest address, to DEEP’s 24-hour Emergency Dispatch Center at 860-424-3333, the DEEP Wildlife Division at 860-418-5921, or send an email to Andrew.labonte@ct.gov.

BAITING AND USE OF ATTRACTANTS
Attractants allowed during the statewide deer hunting seasons.
• Deer decoys during the early and late archery seasons only.
• All types of scent attractants (i.e., doe in heat, buck lure, urine, tarsal glands, food smells, smoke pole) that provide no substance for deer to consume. Hunters are encouraged to minimize the use of natural-based deer lures, and avoid placing deer lures on cloths, skin, ground, or vegetation where deer can reach them.
• All types of sound attractants (i.e., doe calls, buck calls, antler rattling, electronic calls).
• Hunting over planted fields where normal agricultural planting, harvesting, or post-harvest manipulation is used.

In addition to the attractants listed above, the following are allowed ON PRIVATE LANDS ONLY in Deer Management Zones 11 and 12 during the archery, shotgun/rifle, and muzzleloader deer seasons.
• Minerals or chemicals that may be safely consumed by deer (i.e., salt lick)
• Artificial or natural foods placed, scattered, distributed or deposited (i.e., hay, grains, fruit, nuts–any foods that may be safely consumed by deer)

NOTE: It is strongly recommended that individuals hunting on private lands in Zones 11 and 12 consult with landowners prior to placing bait.

DEFINITION OF ANTLERLESS DEER
Some deer tags allow the harvest of antlerless deer only. An antlerless deer is defined as any deer which has no visible antlers. “Button Bucks” are considered antlerless deer. Either sex deer tags allow the harvest of antlered or antlerless deer.

TAGGING AND TRANSPORTING DEER
Immediately upon killing a deer, complete and sign a Harvest Tag and keep it with the carcass at all times until it is cut up and packaged for consumption. Deer do not have to be open to view during transport. See pages 27-30 and 34 for more information on Harvest Tags and reporting.

DEER HUNTER SURVEY
Anybody who obtains a deer permit may be asked to respond to a survey concerning their deer hunting activities. Even if you did not hunt, you should complete the survey. Information gathered from the survey is important to the management of Connecticut’s white-tailed deer population. Surveys may be conducted by mail, telephone, or the internet.

TREE STANDS ON STATE PROPERTIES
The construction or placement of permanent tree stands involving damage to any tree or shrub is prohibited. The use of portable tree stands (climber, ladder, or hang-on) is permissible. However, all tree stands must be removed from state properties at the conclusion of the hunting season. The use of a full-body safety harness when using a tree stand is strongly recommended.

BOWHUNTING SAFETY TIPS
• Hunt and shoot within your own physical limitations.
• Prior to each use, check your bow for cracks, dents, breaks, separating laminates, peeling glass, and defects in mechanical parts.
• Only point the bow and arrow in a safe direction.
• Handle arrows carefully. Protect yourself and the arrow points with a covered arrow quiver.
• Only rock an arrow when it is safe to shoot.
• Cross obstacles and rough terrain with an arrow securely stored in a quiver.
• Be sure of your target and what is in front of it, immediately behind it, and beyond it.
• Use a haul line to raise and lower your bow; never climb a tree stand carrying a bow.
• Check the bowstring regularly, and replace it if it becomes worn or frayed.
TAGGING AND REPORTING INSTRUCTIONS

1. Immediately upon making your kill, complete a Deer/Turkey Harvest Tag. The Harvest Tag must be kept with your deer or turkey until it is processed for consumption. While transporting your kill, you may keep the Harvest Tag in your pocket or wallet. However, if you leave the kill, the completed Harvest Tag must remain with the animal.

2. All turkeys and deer taken must be reported within 24 hours via the internet at www.ct.gov/deep/hunting or by telephone at the toll-free number, 1-877-337-4868. To report your deer or turkey, you will need to know the 3-digit number code of the town in which the animal was killed. The table on page 29 lists Connecticut’s 169 towns and their identifying numbers. If you killed your deer or turkey on state land, you will also need to know the 3-digit number code of the public hunting area. See the Public Hunting Area tables on pages 30 or 40–43 to locate the 3-digit number code for each public hunting area and also find out what may be legally hunted on these areas.

How do I report my deer and turkey kills and get a confirmation number?
You can report your kill on the Department’s website or by calling the toll free number 1-877-337-4868. After reporting, you will be given a confirmation number to write on your Harvest Tag. This confirmation number serves as proof that you have legally reported your kill. You may find that submitting harvest reports online is easier than using the telephone reporting system. The telephone reporting system uses a live attendant that will ask you a series of questions to obtain harvest information. On the website, you answer questions by using convenient drop-down menus. Other advantages of using the website are that you can review reports you have previously submitted and print out copies of these reports.

Reporting by Telephone: Call 1-877-337-4868 (1-877-DEP-HUNT)

TAGGING AND REPORTING INSTRUCTIONS

1. Immediately upon making your kill, complete a Deer/Turkey Harvest Tag. The Harvest Tag must be kept with your deer or turkey until it is processed for consumption. While transporting your kill, you may keep the Harvest Tag in your pocket or wallet. However, if you leave the kill, the completed Harvest Tag must remain with the animal.

2. All turkeys and deer taken must be reported within 24 hours via the internet at www.ct.gov/deep/hunting or by telephone at the toll-free number, 1-877-337-4868. To report your deer or turkey, you will need to know the 3-digit number code of the town in which the animal was killed. The table on page 29 lists Connecticut’s 169 towns and their identifying numbers. If you killed your deer or turkey on state land, you will also need to know the 3-digit number code of the public hunting area. See the Public Hunting Area tables on pages 30 or 40–43 to locate the 3-digit number code for each public hunting area and also find out what may be legally hunted on these areas.

How do I report my deer and turkey kills and get a confirmation number?

### LOOK UP AND WATCH OUT! FOR OVERHEAD HAZARDS

Several years of storms, drought, and insect infestations have severely damaged a significant number of Connecticut’s trees. A “hazard tree” has a structural defect that makes it likely to fall in whole or in part. Such a tree can fall without warning!

Follow these guidelines to manage risks associated with hazard trees:

- Be aware of your surroundings. Avoid dense patches of dead or distressed trees.
- Be particularly watchful when it is windy or when branches are covered with snow.
- Look up while on trails.
- Avoid parking, picnicking, camping, hiking, and hunting in areas where dead trees or dead limbs could fall.

### WHAT TO DO WHEN APPROACHED BY AN ENVIRONMENTAL CONSERVATION POLICE OFFICER

Each year, Connecticut Environmental Conservation (EnCon) Police Officers check thousands of hunters, anglers, boaters, and visitors at our state parks, wildlife management areas, and forests. A compliance check by an EnCon Police Officer is an opportunity for outdoor enthusiasts to have positive interactions with officers while enjoying all the outdoor recreation opportunities Connecticut has to offer. EnCon Police Officers can help explain laws and also provide information about outdoor opportunities and conditions in your area.

EnCon Police Officers are concerned with enforcement of Connecticut laws and regulations that are intended to keep people safe, protect personal property, and conserve the State’s natural resources. There are a few actions you can take to ensure your experience with an EnCon Officer is positive for both you and the officer.

The way hunters should handle their firearms when approached by a law enforcement officer differs from how they should handle them for safety purposes in other circumstances.

### When Hunting:

EnCon Officers are concerned with firearms safety and compliance with hunting regulations when checking hunters. When approached by an officer, you are expected to follow all basic firearms handling rules.

- Control the muzzle - keep the firearm pointed in a safe direction.
- Do not attempt to load or unload your firearm while being approached by an EnCon Officer.
- Comply with all instructions directed to you by the EnCon Officer.

Connecticut’s EnCon Police Officers want each interaction with an outdoor enthusiast to be a pleasant experience. Please be polite and courteous. By promptly complying with all requests as directed by the officer, you can help ensure a safe, pleasant, and productive experience. Take advantage of the opportunity to ask the officer questions. EnCon Officers are an excellent source of information about Connecticut laws and regulations, and the surrounding area. They can assist in making your outdoor experience in Connecticut more enjoyable.
You can help the Wildlife Division keep track of

Bobcat • Black Bear • Fisher • Moose •
Ruffed Grouse • Wild Turkey Broods

Include the date, time, and exact location where the animals were observed. Report bear and
moose online at www.ct.gov/deep/Wildlife. Report bobcats at deep.ctwildlife@ct.gov;
fisher at deer.wildlife@ct.gov, and ruffed grouse at deep.Franklin@ct.gov. Find out how to

### 2019 Connecticut Hunting & Trapping Guide
Our mission is to advance the conservation, use, and appreciation of Connecticut’s wildlife resources.

When you buy a hunting license, pay an excise tax on hunting and shooting equipment, purchase a Connecticut Migratory Bird Conservation Stamp, or contribute to the Endangered Species/Wildlife Income Tax Check-off Fund, you are contributing to wildlife conservation in Connecticut. While the Wildlife Division receives a majority of its funding from hunters, Division efforts and activities benefit all wildlife and habitat, as well as state residents.

Here’s what the Connecticut Wildlife Division does for wildlife and you...

Conserving our natural heritage
• Restoring habitat and native species, including New England cottontail, wild turkey, fisher, osprey, beaver, and many more.
• Conserving threatened and endangered species such as bald eagle, peregrine falcon, Puritan tiger beetle, piping plover, wood and box turtles, and timber rattlesnakes.
• Sustaining wildlife for the next generation and ensuring that our grandchildren will still be able to see birds, butterflies, salamanders, frogs, and bobcats.

Education and Outreach
• Keeping the public informed about wildlife through news articles, publications (Connecticut Wildlife magazine, Wildlife Highlights monthly newsletter), Facebook, wildlife programs and events, and the Sessions Woods Conservation Education Center in Burlington.
• Educating a new generation of hunters through our hunter safety classes on firearms, bowhunting, and trapping, and offering new opportunities for hunters to learn more about species specific hunting, game processing, and other topics.
• Creating opportunities for people to participate in wildlife recreational activities, such as wildlife watching and hunting.
• Creating a volunteer corps of trained individuals to help with research and outreach initiatives through the Master Wildlife Conservationist Program.
• Providing presentations on wildlife biology and habitat management to land trusts, conservation and sportsmen’s organizations, and college classes.

Land conservation and public access
• Managing more than 30,000 acres of state-owned wildlife management areas for wildlife and public enjoyment.
• Maintaining public access to wildlife management areas, parking areas, and wildlife viewing platforms.
• Working with towns, state forests and parks, and private landowners to create habitat management plans and conservation planning initiatives.

Helping residents learn how to live with wildlife
• Offering advice and technical assistance on how to deal with problem wildlife, including beaver and deer damage mitigation and conflicts with black bear, turkeys, Canada geese, and coyotes.
• Providing information on dealing with distressed wildlife.

Introduce someone new to the outdoors...
Connecticut designates specific days when experienced adult hunters are encouraged to take a youth hunting, helping them learn safe and effective hunting practices, develop observational skills, and gain confidence and a comfort level they need to discover a passion for hunting and the outdoors. Mentors usually come away from the experience knowing they have introduced a young person to a sport they love and inspired him or her to become an avid and successful hunter and conservationist. On these days, licensed junior hunters (12 to 15 years of age) may hunt when accompanied by a licensed adult hunter 18 years of age or older. The adult mentor may not carry a firearm and must remain within physical contact in a position to provide direct supervision and instruction at all times.

Stay up-to-date on Junior Hunter events and activities on the DEEP website at www.ct.gov/deep/JuniorHunter and our Facebook page at www.facebook.com/CTFishandWildlife.

Junior Hunter Training Days

**TURKEY**

- April 13 through April 20, 2019 (excluding Sunday)
  - Private Land: Licensed junior hunter and adult mentor must both have a valid Resident Game Bird Conservation Stamp and written consent from landowner.
  - State Land: Licensed junior hunter and adult mentor must both have a Resident Game Bird Conservation Stamp. Adult mentor may assist in calling turkeys. Hunting hours for Junior Turkey Hunter Training Days only are 1/2 hour before sunrise to 5:00 PM.
  - Report Your Harvest: Immediately upon harvest, complete a Deer/Turkey Harvest Tag (page 34). All turkey and deer taken must be reported within 24 hours via the DEEP’s website (www.ct.gov/deep/hunting) or by telephone at 1-877-337-4868.

**WATERFOWL**

Junior hunters (ages 12 to 15) must have a valid small game junior hunting license and a 2019 Connecticut Migratory Bird Conservation Stamp. Sixteen and 17-year-old hunters can participate in the training day, but they must have a valid hunting license, a 2019 Connecticut Migratory Bird Conservation Stamp, and federal 2019-2020 Migratory Bird Hunting and Conservation Stamp. Adults must possess a valid hunting license, however, they are not allowed to carry a firearm. Ducks, geese, mergansers, and coots may be hunted. Bag limits and shooting hours are the same as for the regular duck and goose hunting seasons.

**PHEASANT**

- Saturday, October 12, 2019
  - State and Private Land: Youth participants must possess a current junior hunting license and a Connecticut Resident Game Bird Conservation Stamp. There may be exceptions if hunting on a private shooting preserve or a hunting club property with a Resident Game Bird Stamp exemption. Adults must possess a valid hunting license; however, they are not allowed to carry a firearm.

**DEER**

- Saturday, November 9 through Saturday, November 16, 2019 (excluding Sunday)
  - Private Land: Licensed junior hunter and adult mentor must each have a valid private land shotgun/rifle deer permit and written consent from landowner.
  - State Land: Licensed junior hunter must have a state land shotgun deer permit (Lottery or No-Lottery). Adult mentor must have a valid deer permit of any type. Deer hunting on Junior Deer Hunter Training Days is permitted on any Lottery or No-Lottery Deer Area, regardless of area designated on the permit, with the following exceptions:
    1. Yale Forest, MDC Barkhamsted Reservoir East Block, MDC Barkhamsted Reservoir West Block, MDC Nepaug Reservoir-Valentine/Pine Hill Block, and MDC Nepaug Reservoir - Sweetheart Mt. Block are not open during Junior Deer Hunter Training Days.
    2. Centennial Watershed State Forest and Bristol Water Company are only open to junior hunters and mentors who have both been awarded a permit for these areas.
  - Report Your Harvest: See instructions under Junior Turkey Hunter Training Days.

**SPECIAL JUNIOR HUNTING EVENTS**

The CT DEEP Wildlife Division, with the help of volunteer instructors from the Conservation Education/Firearms Safety (CE/FS) Program and several sportsmen’s clubs, holds special events for junior pheasant hunters at various sportsmen’s clubs throughout the state on Junior Pheasant Hunter Training Day (October 12) and additional dates in the fall. These mentored events allow junior hunters to sharpen their shooting skills on a trap range and then take to the field to hunt with either a certified volunteer hunter safety instructor or experienced hunter, as well as with well-trained bird dogs with their handlers.

“Hunt on Your Own” junior pheasant hunts are also available at designated state-owned locations for licensed junior hunters accompanied by a licensed adult hunter.

Check out the Junior Hunter webpage on the DEEP website (www.ct.gov/deep/JuniorHunter) to learn about special events and activities, see photos from events, and obtain more information for junior hunters.
MESSAGE FROM THE DIVISION OF ENVIRONMENTAL CONSERVATION POLICE

DEEP’s Division of Environmental Conservation (EnCon) Police is responsible for enforcing the state’s wildlife and fisheries laws and providing public safety and law enforcement services in Connecticut’s state parks and forests and on the state’s waterways. The men and women of the Division are dedicated officers who take pride in their mission that supports the protection and management of Connecticut’s natural resources.

With the retirement of Colonel Kyle Overturf after 32 years of dedicated service, I am currently the Acting Colonel of DEEP EnCon Police. Throughout my career, the technology associated with hunting has been increasing at an astounding rate. From trail cameras and smart phone apps to scent blockers and camouflage designs, it is hard to keep up-to-date with the current trends and products. At times, I enjoy going back to the basics. Grab an orange vest, your old .22 rifle, and head into a woodlot to look for gray squirrels. The small game season in Connecticut is lengthy; there are ample locations to visit, the equipment needed is not costly, and the opportunity to be successful is great. What an ideal way to introduce a new hunter to the sport. Become a mentor and share your knowledge. Also, consider giving the person who introduced you to the sport a call. A walk in the woods with an old friend not only brings back memories but creates new ones.

Through education, outreach, and enforcement, the EnCon Police Division will continue to provide public safety and protect the state’s natural resources. We encourage the citizens of Connecticut to take an active role in this mission by reporting fish and game violations to our 24-hour toll free line at 1-800-842-4357.

I remind you to stay safe while visiting our state parks, forests, and waterways and wish you a great year.

Acting Colonel Jeffrey Samorajczyk
State Environmental Conservation Police

Your Tickets

Don’t let the next DU event pass you by. When you attend your local event, you can have a great time while helping us fill the skies with waterfowl. To find an event near you, visit ducks.org/events.
Harvest Tags

Harvest Tags

This page has Harvest Tags that deer and turkey hunters must use to identify their harvest. Photocopies or handwritten versions of these Harvest Tags may also be used. Handwritten versions of these tags must also be signed and include your Conservation ID#, your name, date of kill, time of kill, town of kill and the permit type used. Additional copies of these Harvest Tags are available on the DEEP’s website, www.ct.gov/deep/hunting.

Immediately upon harvesting a deer or turkey, complete and sign a Harvest Tag and keep it with the carcass at all times. Harvested deer and turkey must be reported within 24 hours via the internet at www.ct.gov/deep/hunting or by calling 1-877-337-4868. After reporting your harvest, you will be given a report confirmation number to write on the tag. Keep the tag, completed with all information, with the carcass until it is cut up for consumption.

LEAD BULLET FRAGMENTS IN WILD GAME

There have been concerns about the potential risk of exposure to lead fragments in deer meat harvested with lead ammunition. These considerations have prompted the DEEP, in consultation with the Connecticut Department of Public Health, to provide additional guidance for hunters and consumers of venison. If you would like additional information concerning the health risks of exposure to lead, contact the Department of Public Health at www.ct.gov/dph or call 860-509-7740.

• Harvested deer and turkeys must be reported within 24 hours via the internet at www.ct.gov/deep/hunting or by calling 1-877-337-4868.
After reporting, you must write your report Confirmation Number below.

Confirmation #: ____________________________
Private Land Consent Form

HUNTING ON PRIVATE LAND CONSENT FORM

• All hunters are required to have landowner permission when hunting on private land.
• Private land deer and turkey hunters must carry the form below, signed and dated for the current season. This is required of both archery and firearms hunters.
• You may have a landowner sign a dated consent form before you purchase your license, permits, and stamps, but you must purchase all required license, permits, and stamps, before you hunt.
• Landowners who allow, without fee, the recreational use of their property are protected from liability by Connecticut law (C.G.S. 52-557g).

• Properties must be at least 10 acres in size for rifle or revolver use to be authorized.
• Landowners must designate calendar year, seasons, and choice of hunting implements.
• Where baiting of deer is permitted, it is strongly recommended that individuals consult with landowners prior to placing bait.

Photocopies of these forms may be used, but to be valid, must have original signatures and dates.

Conservation ID#

I know and understand the boundaries of the above listed properties, and that this form is valid only during the calendar year for which it was signed by the landowner. I also understand that any person making a written false statement on this form shall be subject to arrest as provided for in Section 53A-157 of 1975 Rev. of C.G.S.

I hereby grant the person named above permission to hunt on my property during the calendar year indicated. I have also indicated the seasons and hunting implements that may be used.

PERMIT-REQUIRED HUNTING AREAS

Access to Permit-Required Hunting Areas is regulated by agreement with private landowners, towns, state agencies, water companies, universities, non-profits, and cooperating sportsmen’s clubs. Most Permit-Required Hunting Areas are open to the public from the third Saturday in October through the last day of February for small game and waterfowl hunting by special permit and are subject to certain restrictions. Hunting during any other period requires landowner permission unless specifically noted in this guide as open. Access to some DEEP-owned lands is also regulated through a permit system. Maps describing each Permit-Required Area are available from permit vendors and the DEEP website (www.ct.gov/deep/HuntingAreaMaps). Permit-Required Hunting Areas are posted with yellow plastic signs designating the properties under agreement. A listing of Permit-Required Hunting Areas appears on pages 40–43. Note: Some areas are only accessible with a permit issued directly from the entity that owns or manages the property. See the Permit-Required sections on pages 41 and 43 of this guide.

Daily Permits and Mandatory Survey: Permitees are required to submit a hunter survey when using these areas. Hunter surveys are attached to the permit or are available online.

Issuance of Daily Permits:
• Permits are issued free-of-charge to any persons holding valid hunting licenses and who are not eligible for “season” permits.
• Each permit is valid for one licensed sportsman (unless it is a goose field or waterfowl blind permit, or weekend pheasant permit) for a specified time frame and location.
• Daily permits are first-come, first-serve. Once the quota is met, no more permits can be made available for that day.
• Junior hunters may hunt on Permit-Required areas when accompanied by a licensed person at least 18 years of age. Junior hunters need their own permit unless they are hunting pheasants with an AM/PM Saturday permit holder.
• Permits will be issued 3 to 5 days in advance.

Online Issuance of Permits: Daily permits for most Permit-Required Hunting Areas can be obtained for free online. These permits are available on a first-come, first-served basis. Only one online permit can be obtained per selected hunting date. The listing of Permit-Required Areas on the next page indicates which areas have online permitting.

Firearms Restrictions: Rifles of any caliber or shotgun ammunition larger or heavier than #2 shot and hunting with any pistol or revolver of any caliber are prohibited on permit-required hunting areas, except by landowners, lineal descendants, and regular employees. Waterfowlers hunting from a boat, blind, or stationary position may use up to and including BB size steel shot.

RESPECT LANDOWNERS’ RIGHTS

VISIT SESSIONS WOODS

341 Milford Street (Route 69), Burlington, CT
For more information, call 860-424-3011

Learn About Connecticut’s Wildlife
• Exhibit Area
• Self-guided hiking trails
• Demonstrations of wildlife management techniques
• Beaver marsh, observation tower, waterfall

Sportsmen helped pay for the DEEP Wildlife Division’s acquisition of the Sessions Woods Wildlife Management Area through Federal Aid in Wildlife Restoration Act funds. The exhibits, trails, and educational programs at Sessions Woods show citizens how to have a positive impact on Connecticut’s wildlife and other natural resources.

Respect landowners’ rights.

Firewood Regulations in Effect!
Stop the Spread of Invasive Pests
For more information about the regulations, go to www.ct.gov/deep/forestry

www.dontmovefirewood.org
PERMIT-REQUIRED AREA PERMIT VENDORS - STATE-OWNED, STATE-LEASED, AND STATE-MANAGED LANDS

Daily permits for most Permit-Required Hunting Areas can be obtained for free online. These permits are available on a first-come, first-serve basis. Only one online permit can be obtained per selected hunting date. To see which areas have online permitting, consult the Permit Vendor List or Public Hunting Area Maps. To get an online permit for most areas, you must log into your hunter profile on the Online Sportsmen Licensing System at www.ct.gov/deep/Sportsmenlicensing. Once there, you will need to select the OTHER or the BIRDS AND WATERFOWL tab at the top of the page. You should then see a list that includes DAILY PERMITS. If you select ADD, you will see 4 days worth of permits, along with a list of areas where permits are still available. You can add one permit per day to your cart. You must CHECK OUT to add the daily permit to your license. There is no fee, but you will need to reprint your license and carry it with you to verify that you have a permit for the correct location and date. Refer to tables on pages 40–43 to see what types of hunting are permitted.

WESTERN CONNECTICUT

- Bristol Fish and Game Association (1,663 acres)
  — Online Permitting Only
- Centennial Watershed State Forest, Garder Rd., Monroe Block (93 acres)

  — Online Permitting Only
- Higganum-Haddam Rod and Gun (33 acres)
  — Online Permitting Only
- Lebanon Coop. Mgmt. Area (214 acres) Goose Field Permits
  Goose field permittees may bring up to 2 guests
  — Online Permitting Only
- Lebanon Coop. Mgmt. Area Marsh Permits
  (Small game and waterfowl)
  — Online Permitting Only
- Norwich Fish and Game (700 acres)
  — Online Permitting Only
- NU-Kings Island Coop. Area (158 acres)
  Waterfowl hunting only; special restrictions apply.
  — Yankee Bait and Tackle
  88 Main St.
  Enfield, CT: 860-741-5994
- NU-Maromas Coop. Area (1,400 acres)
  — Online Permitting Only
- Sprague Town Land PR Area (620 acres)
  Game bird and migratory bird hunting only.
  Steel shot must be used for all species
  — Online Permitting Only
- Woodstock Landowners (200 acres)
  — Online Permitting Only
- Yale Forest (7,700 acres)
  Open for small game, waterfowl, and turkey hunting with a season permit. This area is not open for Junior Hunter Training Days.
  — JT’s Fly Shop
  664 Buckley Hwy.
  Union, CT: 860-684-1575

SATURDAY PHEASANT HUNTING PERMITS

HUNTING OPPORTUNITIES FOR PERSONS WITH DISABILITIES
Connecticut laws provide special provisions for hunters with disabilities as do many programs administered by the Department of Energy and Environmental Protection. Questions concerning special permits should be directed to the Wildlife Division at 860-424-3011.

CGS Sec. 26-29b: provides a free hunting license (permits and stamps not included) to individuals who have permanently lost the use of a limb. These licenses are available at town clerk offices. Non-residents are eligible for this free license if their state provides the same privilege to Connecticut residents. Verification of the disability, signed by a licensed physician or advanced practice registered nurse, must be presented.

CGS Sec. 26-74: allows a person to obtain a special permit to hunt legally from an all-terrain vehicle so long as they do not possess or shoot a loaded hunting implement while the vehicle is in motion. Note: 4-wheel drive trucks, vans, SUVs, etc. are not considered all-terrain vehicles. Eligible persons must be paraplegic or suffer from the loss of or the loss of the use of both lower extremities and be unable to walk without the assistance of a brace, cane, crutch, prosthetic device, or be confined to a wheelchair. Application deadlines are February 15 and August 15.

State Land Access: Designated portions of state forests and wildlife management areas are accessible to disabled hunters with DEEP permits for use of all-terrain vehicles for hunting. Contact the Wildlife Division at 860-424-3963 for more information.

IMPROVED ACCESS HUNTING AREAS
Several public hunting areas throughout the state have been made more accessible for physically disabled sportsmen. Contact the Wildlife Division’s Eastern District office (860-424-4144, 209 Hebron Rd., Marlborough, CT 06047) or Western District office (860-424-3032; P.O. Box 1550, Burlington, CT 06013) for more information.

DOG TRAINING & FIELD TRIAL AREAS
Hunting is permitted on these areas when field trial events are not scheduled. During field trials these areas are closed to all other uses. Check the DEEP website, www.ct.gov/deep/hunting, for a listing of scheduled events. See tables on pages 40–43 for types of hunting allowed and locations of areas.

Field Trial Areas
The following areas have been established as Dog Training Areas where hunting dogs may be trained with the use of live birds. Game birds may not be shot on these areas except during the open hunting season.

- Nod Brook Wildlife Management Area
- Flaherty Field Trial Area
- Pease Brook Wildlife Management Area

Dates for state land and state-leased areas are scheduled in December of the preceding year. Any group wishing to use one of the above listed areas should contact Laurie Fortin at 860-424-3963 or laurie.fortin@ct.gov in the month of December.

PLEASE REPORT SIGHTINGS OF THIS BEETLE
The non-native Asian longhorned beetle (ALB) has been attacking trees in the United States. Tunneling by beetle larvae girdles tree stems and branches. Repeated attacks lead to dieback of the tree crown and, eventually, death of the tree. The ALB probably travelled to the United States inside solid wood packing material from China.

The ALB has one generation per year. Adult beetles are usually present from July to October, but can be found later in the fall if temperatures are warm. Adults usually stay on the trees from which they emerged or they may disperse short distances to a new host to feed and reproduce.

Adult beetles are ¾ to 1¼ inches long, with a shiny jet black body and mottled white spots on the back. The long antennae are 1⅛ to 2½ times the body length with distinctive black and white bands on each segment. The feet have a bluish tinge.

For more information regarding the ALB, visit the DEEP Forestry Division’s webpages at www.ct.gov/deep/forestry.

To report any suspected findings, contact:
- Deputy State Entomologist Dr. Victoria Smith 203-974-8474 or
- CT State Entomologist Dr. Kirby Stafford 203-974-8485.

WANTED:
Connecticut Landowners Willing to Provide Public Hunting Access!
The Wildlife Division is looking to expand hunting opportunities on private lands throughout the state, mostly focusing on Hartford, New Haven, and Fairfield Counties. Landowners who own far or forested land can be paid up to $20 per acre annually if the land is made available for hunting by the public. Landowners will have the ability to choose which types of hunting are allowed on their lands; access will be controlled; and the landowner will be protected from liability. This is a unique opportunity to help promote wildlife population reduction, reduce wildlife conflicts, and get paid to provide Public Hunting Access!

Connecticut Landowners Willing to Provide Public Hunting Access!

This program allows hunters to donate their game to charitable food organizations. The meat must be processed and refrigerated. Whole deer may also be donated through participating processors.

For information on where you can donate, call one of the following Hunters for the Hungry contacts:

Bob Jean
860-608-8555
Oakdale

Scott Ragoni
732-310-1665
Greenwich

HUNTERS FOR THE HUNGRY

TREES STAND SAFETY RULES
A hunter who improperly uses a tree stand for hunting may suffer a serious injury or death. Follow these tree stand safety rules:

- Always use a full-body safety harness or fall-restraint system.
- Only use equipment that is in good condition.
- Avoid hunting from heights greater than 15 feet.
- Maintain a short tether between you and the tree.
- Always use a haul line to raise and lower your hunting equipment.
THANK A LANDOWNER!

Private landowners create recreational opportunities by granting outdoor users access to their property. This access is a privilege, so please remember to take time every year to extend your appreciation to private landowners who offered you access for fishing, hunting, hiking, or wildlife watching opportunities on their properties. If you have been recreating on local land trust or other private non-profit conservation lands, be sure to include those groups on your thank you list as well. Following are some suggestions for hunters, anglers, and other outdoor users when thanking private property owners who allow access for outdoor recreation:

- Express your appreciation thoughtfully and personally. If you are mentoring a new or junior hunter, angler, birdier, or naturalist, include him or her in the process of thanking the landowner.
- Consider providing the landowner with some of your fish or game harvest, or share images or a list of the wildlife you saw on their property.
- Send a personal note or card thanking the landowner for the opportunity to use his or her land. Consider giving a small gift, such as a gift certificate, gift basket, or a subscription to Connecticut Wildlife magazine. In the case of a non-profit landowner, make a donation to their organization.
- Offer to help with tasks around the property, or identify, clean up, and properly dispose of any illegal dumping that has occurred.

Document and report suspicious or illegal activities on the property to the DEEP Environmental Conservation Police at 1-800-842-HELP (24 hours, toll-free) or deep.EnConPolice@ct.gov.

THE HUNTER’S PLEDGE

Hunting provides unique challenges and rewards. However, the future of this great tradition depends on each hunter being responsible and ethical.

Therefore, as a hunter, I pledge to:

- Show respect for the laws.
- Show respect for other hunters.
- Show respect toward landowners and always obtain permission to hunt on private land.
- Show respect for non-hunters.
- Show respect for the land and wildlife resources.
- Familiarize myself with the areas where I plan to hunt and know the activities that occur there.
- Wear at least 400 square inches of fluorescent orange when required for hunting.
- Dress appropriately and be prepared for any sudden weather changes.
- Call out “Hunter here!” loudly to make my location known if I see another hunter.
- Take responsibility for my actions while hunting.

SAVE ON YOUR TAXES!

Use your state income tax refund to help save Connecticut’s wildlife and plants. Their future is on the line – the “Endangered Species/Wildlife” Fund line on your tax return. Just check the box to make a donation and show your support. Your gift is deductible from next year’s federal income tax.
The following areas are open to public hunting. The key to the left specifies what type of hunting is permitted. Special stamps and permits are needed when hunting some species. Consult season descriptions for the species you are hunting. Consult page 12 for firearms restrictions. Some portions of these properties may be closed to hunting. Obey all postings. Maps for many of these areas are available on the DEEP website at [www.ct.gov/deep/HuntingAreaMaps](http://www.ct.gov/deep/HuntingAreaMaps). It is recommended that you check the Public Hunting Area Map on the DEEP website for the most current hunting area information as changes or updates may occur after this guide is printed.

Access: Public hunting areas marked by an asterisk (*) have notes at the end of this section. Important notes are highlighted in red.

**Black Rock Lake:** Portions of area open to hunting through cooperation of the Army Corps of Engineers. Firearms hunting limited to shotgun ammunition only. Firearms hunting prohibited between March 30 and the third Saturday in October. Target or trap shooting prohibited.

**Bloomfield Flood Control Area Site 2:** Site 2 is leased to the town of Bloomfield and a special permit from the town clerk is required to hunt small game under special restrictions. Only open from the third Saturday in October until the end of February. Site 3 is no longer open to hunting.

**Centennial Watershed State Forest:** Eastern, Weston, Monroe, Newtown, Trumbull. Portions open to deer bowhunting by special access permits only. Access permits available from the Aquarion Water Company’s Aspetuck Environmental Center, 714 Black Rock Road (Rte. 58), Easton. Use the DEEP’s website (www.ct.gov/deep/hunting) for updated information.

**Hancock Brook Lake:** Open to hunting through cooperation of the Army Corps of Engineers. Firearms hunting limited to shotgun ammunition only. Target or trap shooting prohibited.

**Naugatuck State Forest – Quinnipiac Reservoir Block:** No access or parking from Deerfield Lane or Ansonia Nature Center property. Area west of Clinton Road has been designated as a Deer Bowhunting Only area. Closed to waterfowl hunting.

**NU-Kings Island Coop WMA:** Special restrictions apply. Waterfowl hunting only. Area may be closed before the end of the waterfowl season. Access at Parsons Road boat launch.

**Scantic River State Park:** Three parcels open to bowhunting for deer or turkey. Two of the three parcels open for small game, waterfowl, and spring turkey bowhunting (see area map). From the third Saturday in October through the first Saturday in December, a daily permit for the East Windsor/Enfield Permit-Required Area is required to hunt small game and waterfowl.

**South Central Connecticut Regional Authority Waterfowl:** Bowhunting for deer only is allowed except on 3,233 acres in North Branford, 154 acres in Seymour and Ansonia, 420 acres in Prospect, and 520 acres in Bethany. Details on how to apply are at https://www.nwtf.com/conservation-stewardship/deer-and-water-quality.

**Stewart B. McKinney NWR:** Permits are available by calling the Visitor Services Manager at 860-399-2513.

**Thomaston Dam:** Open to hunting through cooperation of the Army Corps of Engineers. Firearms hunting limited to shotgun ammunition only. Firearms hunting prohibited between March 30 and the third Saturday in October. Target or trap shooting prohibited.

---

www.ct.gov/deep/hunting
The following areas are open to public hunting. The key to the left specifies what type of hunting is permitted. Special stamps and permits are needed when hunting some species. Consult season descriptions for the species you are hunting. Consult page 12 for firearms restrictions. Some portions of these properties may be closed to hunting. Obey all postings. Maps for many of these areas are available on the DEEP website at www.ct.gov/deep/HuntingAreaMaps. It is recommended that you check the Public Hunting Area Map on the DEEP website for the most current hunting area information as changes or updates may occur after this guide is printed.

**Access:** Public hunting areas marked by an asterisk (*) have notes at the end of this section. Important notes are highlighted in red.

Harkness Memorial State Park: A portion of the park north of Rte. 213 (former Verkade property) is designated as a Deer Bowhunting Only area. Special access permits are required. Inquire at Park Manager’s Office.

Lebanon Cooperative Management Area: Hunting only in area located south of Old Rte. 2 (Norwich Ave.). Area owned by the Dept. of Agriculture and leased for farming.

Nye Holman State Forest: Sections adjacent to field archery range in Tolland are closed to all firearms hunting and are designated Deer Bowhunting Only areas. Youth camping area is closed to all hunting.

Yale Forest Permit-Required Area: Area open from September 1 through February 28 for small game, waterfowl, and turkey hunting by seasonal access permit. Parking passes are also required. See vendor for details (Page 37). Harvest of coyotes and foxes prohibited.

**DISCOVER OUTDOOR CONNECTICUT DAY**

JOIN THE FORCE FOR THE RESOURCE

A fun-filled event that explores CT’s fish and wildlife resources and legacy of outdoor traditions, with live animals, demonstrations, archery, fish casting, fly tying, shooting clays, kid’s activities, outdoor skills, game cooking, a photo contest, and more.

<tr>
<td>Sessions Woods WMA</td>
<td>Apr. 7</td>
<td></td>
</tr>
<tr>
<td>Rte. 69, Burlington</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Pelts will be tagged (at no cost) by DEEP representatives between the hours of 9:00 a.m. and 11:00 a.m. at the locations and dates listed above. Pelts can be tagged at some DEEP field offices during weekdays by appointment. Call the Wildlife Division at 860-424-3015 (Sessions Woods, western CT) or 860-418-5956 (Franklin WMA, eastern CT) for weekday and other tagging options.

**HELP NEEDED FOR BOBCAT RESEARCH PROJECT**

Any Connecticut trapper that incidentally captures a bobcat should contact DEEP's 24-hour Dispatch Center at 860-424-3333 as soon as possible. DEEP Wildlife Division biologists will arrange to meet trappers to immobilize, tag, and release the bobcat on site.

**COYOTE LAND TRAPPING**

From December 1 through January 31 there are special provisions for trapping coyotes on private land. Refer to PADDED METAL TRAP RESTRICTIONS section on page 46 for the requirements that must be met to trap coyotes on private land during this time period.

**TAXIDERMISTS**

Taxidermists can accept untagged animals or pelts, but are required to have them tagged by the next scheduled tagging date. Taxidermists must attach a paper tag to the animal or pelt listing the hunter or trapper’s name, Conservation ID number, town of harvest, and date of harvest.

**PELTS OF PROTECTED SPECIES**

Any skin, pelt, or carcass of protected species, including Bobcat and Black Bear, may not be sold, purchased, or possessed unless:

1. It was legally acquired and,
2. In addition to any tag required by any other state or country, affixed with a separate tag bearing the following information: (a) Date acquired. (b) Name and address of the person from whom it was acquired. (c) Hunting or trapping license number under which it was purchased. (d) State and/or country from which it was acquired.

**CARCASS COLLECTIONS**

Wildlife biologists are collecting carcasses of fishers to determine the age structure and productivity of the population. If you harvest fishers, you should turn the carcasses in at pelt tagging stations or call the Wildlife Division at 860-424-3011 to arrange for a pick-up.

**STATE LAND TRAPPING**

Permits for trapping on selected state-owned land can be purchased for $120.00 per unit. There are two units, one east and one west of the Connecticut River. The units include many of the state forests and wildlife management areas. Information on applying for permits, applicant requirements, and available properties can be obtained on the DEEP website at www.ct.gov/deep/Hunting or by contacting the Wildlife Division at 860-424-3011.

**LEGAL TRAPS AND METHODS**

Furbearing animals for which there is an open trapping season may be taken by Box Traps, Live Traps, Deadfalls, Padded and Unpadded Metal Traps, Smooth Wire Traps, and Species Specific Traps subject to the following restrictions.

**UNPADDED METAL TRAP RESTRICTIONS**

1. May only be used below the surface of the water in a pond, lake, stream, spring hole, or tidal water.
2. Opening greater than 5 1/2” is prohibited, except that traps with an opening of up to 7 1/2” may be set for beaver in waters frequented by beaver.

**PADDED METAL TRAP RESTRICTIONS**

1. May only be used in the burrow of a wild animal or below the surface of the water in a pond, lake, stream, spring hole, or tidal water. Except that, any person who has completed a DEEP-approved coyote land trapping course (trapper must carry proof of course completion on their person) may use padded metal traps on or below ground from December 1 through January 31 for the taking of coyotes on private land parcels of at least 10 contiguous acres where the landowner has given written permission explicitly for the use of such traps. When trapping coyotes in this manner, no visible bait may be used, pan tension must be two pounds or greater, and traps must be securely anchored to the ground.

2. Opening greater than 5 1/2” is prohibited, except that traps with an opening of up to 7 1/2” may be set for beaver in waters frequented by beaver.

**SMOOTH WIRE TRAP RESTRICTIONS**

1. May only be used below the surface of the water in a pond, lake, stream, spring hole, or tidal water. Except, smooth wire traps having an opening of 4 3/4” or less may extend above the surface of the water provided a portion of the trap frame remains in contact with the water.
2. Opening greater than 6 1/2” is prohibited, except that Conibears and similar smooth wire traps with an opening of up to 10” may be set for beaver in waters frequented by beaver.

**THE FOLLOWING ARE PROHIBITED:**

- The use of any type of snare.
- Traps placed, set, or tended within 10 feet of the waterline of a muskrat house or beaver house.
- Traps with serrations or teeth.

**TRAPPERS ARE REQUIRED TO:**

- Attach their name legibly to all traps.
- Obtain, and have in possession, the written permission of the landowner when trapping on their land. Written permission must be renewed annually. (Permission slip on page 46.)
- Tend all traps within a 24-hour period.

**TRAP DEFINITIONS**

**Padded Metal Trap:** A legal padded metal trap has all of the following features or characteristics:

1. Spring strength not exceeding 55 inch pounds with arms closed and 85 inch pounds with arms in the open position;
2. A gap between the arms of the trap in the closed position no less than 1/2 inch in width and no less than 4 inches in length;
3. Replaceable non-weather-hardening, non-age hardening padding material not less than 1/2 inch thick covering the closing surfaces and securely affixed to the arms of the trap;
4. A chain no longer than 6 inches in length;
5. Swivels located at each end of the chain, and;
6. A shock absorbing spring incorporated into the anchoring chain.

**Species Specific Trap:** A legal species specific trap has all of the following features or characteristics:

1. Triggering and restraining mechanisms enclosed by a housing;
2. When set, triggering and restraining mechanism accessible only via a single opening;
3. An access opening measuring no greater than 2 inches in diameter or diagonally;
4. A triggering mechanism that can only be activated by a pulling force;
5. A swivel-mounted anchoring mechanism.
Every time you purchase a fishing license or register your boat, a portion of the proceeds go toward preserving our nation’s coastlines, lakes, rivers and streams. Protecting our memories on the water for generations to come.

Furbearer Trapping Seasons & Regulations

Rabies: What Hunters and Trappers Should Know

- Rabies is a disease caused by a virus affecting the central nervous system. Left untreated, rabies is almost always fatal.
- Rabies is primarily transmitted through the bite of an infected animal; however, people may also be exposed by being scratched by a rabid animal or getting an animal’s saliva in an open wound or mucous membrane (eyes, nose, or mouth).
- Only mammals get rabies. Raccoons, skunks, bats, foxes, dogs, and cats are most likely to get rabies. Rabbits, opossums, and squirrels are seldom affected.
- Since 1991, rabies has infected thousands of raccoons in Connecticut. Hunters and trappers can minimize their risk of exposure to rabies by following several common sense rules and by knowing what to do if they or their pets are exposed:
  - Avoid contact with animals appearing sick or acting abnormal, i.e. aggressive, paralyzed, disoriented, or unusually tame.
  - Wear disposable rubber gloves when dressing and skinning game, and clean up with soap and water promptly.
  - Make sure your dogs have current rabies vaccinations. If you have a cat as a household pet, be certain it is vaccinated as well.
- If you frequently handle high risk species, such as raccoons, skunks, or foxes, consider getting the human pre-exposure vaccine.
- If you are bitten or scratched or think that you have been exposed to rabies from a wild animal, wash the exposed area thoroughly with soap and water, and contact your doctor or emergency clinic immediately.
- If possible, without further injury or risk of exposure, capture, kill, or confine the wild animal without damaging the head, and contact your local health department for additional information.
- If your pet fights with a wild animal, attempt to secure the animal for rabies testing. Always wear gloves when handling your pet or treating its wounds under such circumstances. Notify your local Animal Control Officer and contact the pet’s veterinarian for advice and/or treatment.
- Rabies virus is concentrated primarily in the saliva, brain, and spinal cord. Heat from thorough cooking will kill the rabies virus, making properly cooked meat from game animals safe. When preparing meat for cooking, wearing rubber gloves and cleaning up with soap and water is recommended.

Trapping on Private Land Consent Form

- All trappers are required to have landowner permission when trapping on private land.
- Written permission, signed and dated for the current season, must be carried on the person. The form below can be used to obtain permission.
- You may have a landowner sign a dated consent form before you purchase your trapping license, but you must purchase your license, before you trap.
- Landowners who allow, without fee, the recreational use of their property are protected from liability by Connecticut law (C.G.S. 52-557g).
- Trappers who have completed a DEEP-approved coyote land trapping course may use padded metal traps on or below the ground from December 1 through January 31 for the taking of coyotes on private land parcels of at least 10 contiguous acres where the landowner has given written permission explicitly for the use of such traps.

Photocopies of these forms may be used, but to be valid, must have original signatures and dates.

I know and understand the boundaries of the above listed properties, and that this form is valid only during the calendar year for which it was signed by the landowner. I also understand that any person making a written false statement on this form shall be subject to arrest as provided for in Section 53A-157 of 1975 Rev. of C.G.S.

I hereby grant the person named above permission to trap on my property during the calendar year indicated. I have also indicated whether or not the trapper is authorized.

**HOG SWAT**

For $500 per night, per person, we take you on the ultimate Hog Hunt! We use highly modified 4x4 vans equipped with long range FLIR on the roof and large screens and comfortable seating. This allows us to take up to 4 hunters in comfort and cover 1000’s of thousands of acres a night in search of wild hogs to kill. Once we spot them from the van, it turns into ‘bowhunting with an AR’. We foot stalk into 60 yards and you try to kill every pig in front of you with an AR with a top of the line Armasight thermal scope. How many will ya get?

“Class Bird Dogs from Champion Bloodlines”
The Wildlife Division's Conservation Education/Firearms Safety (CE/FS) Program offers hunting safety classes on firearms and archery hunting and trapping throughout the year. The classes are taught by a dedicated corps of certified volunteer instructors. The CE/FS Program is now offering Advanced Hunter Education seminars and clinics on such topics as waterfowl hunting, hunter marksmanship, small game hunting, venison processing, and wild turkey hunting. These seminars and clinics expand on the knowledge and skills of hunters and anyone else who wants more information about hunting. All programs are free and open to the public. Registration is required. Registration opens 30 days in advance of each seminar. (See page 6 for more details.)

Eastern Standard Time approximate for Central Connecticut and adjusted for Daylight Saving Time.

<tr>
<td>The Wildlife Division’s Conservation Education/Firearms Safety (CE/FS) Program offers hunting safety classes on firearms and archery hunting and trapping throughout the year. The classes are taught by a dedicated corps of certified volunteer instructors. The CE/FS Program is now offering Advanced Hunter Education seminars and clinics on such topics as waterfowl hunting, hunter marksmanship, small game hunting, venison processing, and wild turkey hunting. These seminars and clinics expand on the knowledge and skills of hunters and anyone else who wants more information about hunting. All programs are free and open to the public. Registration is required. Registration opens 30 days in advance of each seminar. (See page 6 for more details.)</td>
