

# Redding Planning Commission

P.O. Box 1028

Redding Center, Connecticut 06875-1028

## Subdivision Application Fee

**Please call the Office at 938-3721 PRIOR TO SUBMISSION to determine your individual fee**

The Redding Planning Commission has revised its application fee procedure pursuant to Section 8-1c of the Connecticut General Statutes and the 2003 Town of Redding "Ordinance Establishing Fees for Municipal Land Use Applications" which allow the actual excess costs of reviewing, evaluating and processing subdivision applications and subdivision review to be billed to the applicant.

The basic subdivision application fee of \$400 per lot remains the same. It shall be submitted with each application and will be retained by the Town. However, a new additional fee will be imposed, consisting of an estimate for Commission consultant costs based on actual billing history. This additional fee is also to be paid at the time of submission of the application.

Any estimated consultant fees not expended on review of the application shall be refunded to the applicant upon conclusion of the application process. In the event that consultant costs are in excess of any estimated amount paid by the applicant, the Commission shall bill the applicant, who shall pay such additional costs prior to recording of the subdivision.

The basic fee of \$200 for any request to amend an approved subdivision shall remain the same. If consultant fees exceed the amount resubmitted, the additional sum shall be billed to the applicant and paid prior to approval of the request.

Adopted by the Redding Planning Commission  
11/14/06

**REDDING PLANNING COMMISSION**  
**Application Form**

It is suggested that the applicant consider going through the preliminary application process before submitting a final subdivision application. Forms and information are available at the Land-Use Office. Complete pages 1-7 with precise information. Note samples for "Unobstructed Parking Spaces" and "Buildable Areas".

Please submit applications before 12:00 noon on the Thursday preceding a meeting.

Special Note for any applicant who plans to seek Planning Commission approval for shared-driveway access in a subdivision or resubdivision:

A request to the Planning Commission to consider common-driveway access may be made as part of a subdivision or resubdivision application (see Subdivision Regulations 4.1.9a), but it is a prerequisite for considering the common-driveway option that the application for individual-driveway access be fully ready for Commission action. This must include either:

- a.) Individual driveways located to avoid any activity within an area regulated by the Inland Wetlands Commission, or
- b.) Receipt of the required report of the Inland Wetlands Commission on the individual-driveway option per CGS 8-26.

PLEASE NOTE: Historically, Redding's Inland Wetlands Commission has not looked favorably on individual driveways having wetland impact. A negative finding on individual driveways may necessitate a subdivision design based upon road access rather than driveway access.

**Applicant: State specifically where each requirement has been shown.**

Answer each line in full.
