Hi Aimee,

The Phase II didn't reveal anything that would preclude developing this parcel as it is presented. From a historical perspective, I can see no reason to hold this up if it meets the requirements of P&Z.

Hello Bruce and Brent,

The Redding Planning Commission has received an application to subdivide the property at 130 Topstone Road into 4 lots.

I am attaching a link to the agenda for the Redding Planning Commission that contains further links to the documents associated with this property. You'll note that those documents include a Phase II Archaeological Study.

<https://townofreddingct.org/agenda/planning-commission-129/>

I'm a bit behind getting the referrals out: we are opening our public hearing tonight but it will be continued at least to September 22nd and likely beyond that date.

If either of you have any comments, the Commission looks forward to hearing them.

Thanks for your time!
