The Commission began its inspection by receiving information on the project from C. Hulk. The inspection along the access road past the proposed new parking lot to the field area. The location of the existing drainage system was reviewed. Questions were asked of C. Hulk, the engineer for the project, regarding the turf composition, the field lighting, and the drainage system. Information will be provided at the Commission meeting on April 18.

The site inspection ended at 6:00 p.m.
